INTRODUCTION TO THE PUBLIC ACCOUNTS OF MANITOBA

The Public Accounts of the Province of Manitoba are prepared by statutory requirement, in accordance with the Financial Administration Act, which is Chapter F55 of the Continuing Consolidation of the Statutes of Manitoba. The Public Accounts for the fiscal year ended March 31, 1988 consist of three volumes:

Volume 1 contains the financial statements of the Consolidated Fund of the Province and schedules of supporting information.

Volume 2 is a supplementary volume which contains further details of the expenditures by standard expenditure object codes. It also provides details of the salaries and wages paid to employees as well as payments to corporations, firms, individuals, other Governments and Government Agencies.

Volume 3 contains the Summary Financial Statements of the Province. This is the first year that these statements are presented in this form. The long range intent of these statements is that they will reflect the consolidation of the operations of all organizations integral to the overall operations of Government in performing its executive function. At this time however, only the operations of Manitoba Properties Inc., Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. are consolidated with those of the Operating Fund. The Department of Finance is working to reflect the financial operations of the other organizations in future Summary Financial Statements.

CONTENTS OF VOLUME 1 — FINANCIAL STATEMENTS OF THE CONSOLIDATED FUND

a) **Section 1 — Operating Fund Financial Statements**

This section provides a summary of the government's operational activities and financial requirements for the fiscal year ended March 31, 1988 and its financial position at the year-end.

b) **Section 2 — Details of Operating Fund Assets and Liabilities**

The schedules to the financial statements report in greater detail the content of the Statement of Operating Fund Assets and Liabilities.

c) **Section 3 — Borrowings, Guaranteed and Indirect Liabilities, Financial Commitments and Contingent Liabilities**

These statements provide details of the direct and guaranteed debt obligations at the fiscal year-end and the sinking funds that are maintained for repayment of this debt.

d) **Section 4 — Detailed Revenue and Expenditure Statements**

These statements provide detailed information regarding the revenue and expenditure of the fiscal year. This section also includes information that is provided in accordance with statutory requirements.

e) **Section 5 — Trust Fund Statements**

Financial statements prepared for the Trust Fund report the activities in the various categories of trust money administered by the Province.

f) **Section 6 — Other Funds**

Statements of certain special purpose accounts are provided in this section.

REPORT OF THE PROVINCIAL AUDITOR ON THE CONSOLIDATED FUND FINANCIAL STATEMENTS OF THE GOVERNMENT OF THE PROVINCE OF MANITOBA

I report that the Consolidated Fund financial statements, being the Operating Fund and Trust Fund financial statements, included in the Public Accounts of Manitoba have been examined under my direction for the year ended March 31, 1988. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Consolidated Fund of the Government of the Province of Manitoba as at March 31, 1988 and the results of its operations and the changes in its financial position for the year then ended. The financial statements are presented in accordance with the Government's stated accounting policies applied, except for the changes in the accounting policies explained in Accounting Policies–Statement and Application, Application of Accounting Policies, section IV to the financial statements, on a basis consistent with that of the preceding year.

GOVERNMENT OF THE PROVINCE OF MANITOBA

STATEMENT OF RESPONSIBILITY

Responsibility for the integrity and objectivity of the Operating Fund and Trust Fund financial statements rests with the Government. They are prepared under the direction of the Minister of Finance in accordance with the stated accounting policies of the Government and include a statement of financial position, a statement of excess of liabilities over financial assets, a statement of revenue and expenditure, a statement of changes in financial position, schedules, notes and accounting policies integral to the statements. Together, they present fairly, in all material respects the financial condition of the Consolidated Fund at the fiscal period-end and results of operations for the year then ended. More detailed information regarding the Government's financial position and operating results can be found in other sections of this Volume and in Volume 2 of the Public Accounts.

On behalf of the Government:

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended March 31, 1988

1. EFFECT OF CONSOLIDATION OF MANITOBA PROPERTIES INC.

During 1984–85 and 1985–86 the Province sold land and buildings with an aggregate value of $917 million to Manitoba Properties Inc. (MPI). The sale was arranged through two intermediary crown corporations, Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc., and resulted in the Province receiving common shares of these two corporations along with promissory notes of MPI and cash as the purchase consideration. If the accounts of MPI and its two intermediary Crown Corporations were consolidated in the financial statements of the Province, this would result in the following effect on the Statement of Financial Position and on the Statement of Revenue and Expenditure:

a) Securities received from sale of land and buildings to MPI in the amount of $182 million would be eliminated for the year ended March 31, 1988 (1987–$182 million).

b) Promissory notes of $26 million for the fiscal year ended March 31, 1988 (1987–$17 million) would be eliminated. These funds were advanced to cover administrative costs of $8 million (1987–$6 million) and capital expenditures of $18 million (1987–$11 million).

c) Liabilities would be increased by $399 million for the year ended March 31, 1988 (1987–$399 million) to reflect the outstanding preferred shares of MPI (with an equivalent decrease in guaranteed and indirect liabilities).

d) The valuation allowance of $8 million (1987–$6 million) for MPI would be eliminated.

e) The aggregate of these amounts, totalling $599 million for the fiscal year ended March 31, 1988 (1987–$592 million), would increase the Excess of Liabilities Over Financial Assets account by $592 million (1987–$581 million) and 1988 expenditure by $7 million (1987–$11 million).

f) The net effect on the expenditure accounts of the Government for the fiscal year ended March 31, 1988 would be an increase in public debt costs of $61 million (1987–$60 million), an increase in expenditure related to capital of $7 million (1987–$11 million), a decrease in expenditure for supplies and services of $59 million (1987–$59 million) and a decrease in grants/transfer payments of $2 million (1987–$1 million).

2. PROVISION FOR FOREIGN CURRENCY FLUCTUATION ON MANITOBA HYDRO DEBT

The Province issues provincial securities to raise funds for Manitoba Hydro. This debt, as well as the effect of currency fluctuations for foreign issues, is considered borrowings of the Province and is reflected as such on the Statement of Financial Position. In addition, the Province guarantees debt which Manitoba Hydro issues in its own name. The fluctuation on the guaranteed debt issued in foreign currencies was $239 million at March 31, 1987. Pursuant to the Energy Rate Stabilization Act, the Province was responsible for the fluctuation on all Manitoba Hydro foreign currency debt. Because the guaranteed debt itself is not a liability of the Province, the fluctuation on foreign currency debt for which the Province was responsible has been recorded as a separate liability, apart from borrowings.

The Energy Rate Stabilization Act was amended effective April 1, 1987 limiting the Province's liability for fluctuation on Manitoba Hydro debt. Manitoba Hydro became responsible for the fluctuation on its U.S. dollar denominated debt, whether issued by the Province or by Manitoba Hydro, except to the extent already provided by way of amortization by the Province to March 31, 1987. At maturity of each U.S. dollar debt issue, the Province is responsible for the lesser of the currency fluctuation on the maturing debt or the amount remaining in the provision account for that issue. The amount amortized by the Province at March 31, 1987 was $159 million. At March 31, 1988 the amortized amount remaining in the provision account related to outstanding issues is $153 million.

The Province retains responsibility for the fluctuation, in currencies other than U.S. dollars, for both its direct and guaranteed debt for Manitoba Hydro outstanding at March 31, 1987. As a result of the amendment to the Energy Rate Stabilization Act, Manitoba Hydro is now responsible for the fluctuation on debt issued after that date. As at March 31, 1988, Manitoba Hydro debt guaranteed by the Province contained no foreign currency other than U.S. dollars.

3. BORROWINGS

All borrowings are expressed in Canadian dollars. Foreign borrowings are converted at the exchange rate in effect at March 31.

The weighted average rate of interest based on actual interest payments made during 1987–88 was 10.52% (1987–11.13%).

The classification of borrowings by purpose is as follows:

	Exchange Rate in Effect at			
	Issue Date		March 31	
	1988	1987	1988	1987
	($ millions)		($ millions)	
General Government Programs	$ 5,118	$ 4,429	$ 5,907	$ 5,115
The Manitoba Hydro-Electric Board	2,531	1,986	2,745	2,298

Other	705	681	705	681
	$ 8,916	$ 7,623	$ 9,921	$ 8,622
Less: Sinking Funds	1,295	1,055	1,295	1,055
Unamortized Debt Issue Costs	44	39	44	39
	$ 7,577	$ 6,529	$ 8,582	$ 7,528

Included in "Other" is debt totalling $166 million which has been used to fund loans, advances and investments for which valuation allowances have been established at March 31, 1988. If write-off of these assets occurs, this debt would be considered to be General Government Programs debt.

4. UNAMORTIZED FOREIGN CURRENCY FLUCTUATION

At March 31, 1987, the Statement of Financial Position stated assets and liabilities at the exchange rate in effect at date of issue and reflected a Provision for Unrealized Foreign Currency Losses. At March 31, 1988, assets and liabilities in foreign currency have been restated at the March 31 exchange rate, and concurrently Unamortized Foreign Currency Fluctuation is now being shown. Details of the transactions are:

	($ millions)	
	1988	1987
Balance at beginning of year	$ (959)	$ 210
Adjustment of Prior Years Amortization	205	-
Current year amortization	20	69
Provision for Unrealized Foreign Currency Losses at March 31, 1987		279
Unrealized Foreign Currency Fluctuation	(5)	(999)

Realized Foreign Exchange Gains (Losses)	(13)	-
Closing balance — Unamortized Foreign Currency Fluctuation	$ (666)	$ (959)

5. TRUST FUND

Included in the Statement of Financial Position is an amount owing to the Trust Fund which primarily represents surplus cash of Crown Corporations, Agencies, Boards and Commissions on deposit with the Minister of Finance for investment but not specifically invested. The assets and liabilities of the Trust Fund itself as at March 31st are as follows:

	($ millions)	
	1988	1987
ASSETS		
Amounts due from Operating Fund	$ 842	$ 570
Cash and Investments	586	586
Total Trust Assets	$ 1,428	$ 1,156
LIABILITIES		
Trust Fund Balances	$ 1,428	$ 1,156
Total Trust Liabilities	$ 1,428	$ 1,156

In addition, the Trust Fund includes cash and securities for which the Government's responsibility is custodial in nature. The amount reported at March 31, 1988 was $582 million (1987-$540 million).

6. GUARANTEED AND INDIRECT LIABILITIES

Debt issued by Crown Corporations, Agencies, Boards and Commissions which is guaranteed by the Government as at March 31st:

	($ millions) 1988	1987
Self-supporting Debt	$ 1,542	$ 1,683
Debt of Crown Corporations whose main source of income is the Consolidated Fund	399	399
Debt serviced in whole or in part from the Consolidated Fund	10	13
	$ 1,951	$ 2,095
Less: Applicable Sinking and other related Trust Funds	263	273
	$ 1,688	$ 1,822

A portion of the foreign currency fluctuation on the guaranteed debt included above has been provided for in the Provision for Foreign Currency Fluctuation on Manitoba Hydro Debt.

7. FINANCIAL COMMITMENTS

The Government has entered into long-term financial arrangements wherein indebtedness has been issued that is not guaranteed by the Government, but the funds required for the payment of principal and interest will be either fully or partially provided from appropriations of the Consolidated Fund. The Government has also made future commitments against appropriations under long-term contracts that cover the acquisition and/or rental of physical assets. These financial commitments as at March 31st are as follows:

	($ millions) 1988	1987
LONG-TERM FINANCIAL ARRANGEMENTS:		
Hospitals & Personal Care Homes	$ 405	$ 362
Public Schools	252	219
Manitoba Housing and Renewal Corporation	229	231
Manitoba Water Services Board	2	2
Brandon University	3	3
	$ 891	$ 817
FUTURE COMMITMENTS:		
Acquisition of Physical Assets	79	113
Rental of Physical Assets	164	220
	$ 1,134	$ 1,150

In addition to the approved outstanding debt for Hospitals and Personal Care Homes, lines of credit up to $72.4 million (1987-$100 million) have been approved to finance capital projects currently in process. On completion of these projects, the borrowings will be converted to long-term debt.

8. CONTINGENCIES

The Government has provided guarantees for the following and accordingly has a contingent liability in the event of default:

	Maximum Guarantee	Amount Outstanding March 31, 1988 ($ millions)	Amount Outstanding March 31, 1987
Mortgages	$ 1	$ 1	$ 1
Performance Bonds	–	–	53
Promissory Notes	175	–	25
Bank Loans and Lines of Credit	38	16	2
	$ 214	$ 17	$ 81

This does not include guarantees that may be provided by Crown Corporations, Agencies, Boards and Commissions under their own separate authority.

The Province has provided a guarantee to the purchaser of Flyer Industries Ltd. covering all of the obligations of Manitoba Development Corporation arising out of the sale of Flyer Industries Ltd. including $53,000,000 of performance bonds on contracts for the supply of buses to various transit organizations.

The Government has been named in approximately 100 claims still outstanding at March 31, 1988. No provision has been made for these claims in the accounts at March 31, 1988 as the likelihood for success of these claims has not been established.

9. PENSION LIABILITY

The Province is required by legislation to pay 50% of the pension disbursements made to retired Provincial employees (with the exception of the share payable by Government Agencies for their employees) and to retired teachers. Such payments are charged to departmental appropriations as incurred and no provision is made to fund current or past service obligations of the Province to the Civil Service Superannuation Fund or to the Teachers' Retirement Allowances Fund. The reserves which are presently held in these Funds represent only the employees' obligation towards the total pension liability.

An actuarial valuation and report of the Government's liability to the Civil Service Superannuation Fund was determined as at December 31, 1986. The report also provided a formula to update the liability on an annual basis. In accordance with the formula adopted by the actuary, the Government's actuarial liability to the Civil Service Superannuation Fund has been calculated at approximately $346 million as at December 31, 1987 (1986–approximately $305 million). The liability of the Province to the Teachers' Retirement Allowances Fund has not been established by an actuarial valuation. The reserve which is held in the Teachers' Retirement Allowances Fund, representing the employees' obligation towards the total pension liability, amounted to $533 million as at December 31, 1987 (1986–$473 million). The Province's liability should approximate these amounts.

10. UNFUNDED LIABILITIES

The Province has accrued a liability at March 31, 1988 for unfunded losses or program expenditures in order to recognize the Province's responsibility to fund these amounts when they become payable:

	($ millions) 1988	($ millions) 1987
Manitoba Public Insurance Corporation:		
— Reinsurance Assumed Losses	$ 32	$ –
— Personal and Commercial Losses	27	–
Workers Compensation Board — Reimbursement of interest forfeited on employer assessments	16	–
Criminal Injuries Compensation Board — Unfunded future costs of compensation awards	15	–
Manitoba Development Corporation — Additional provision for warranty costs related to Flyer Industries Ltd. divestiture	6	7
Public Schools Support	–	35
Other	1	–
	$ 97	$ 42

11. AMORTIZATION OF FOREIGN CURRENCY FLUCTUATION

At March 31, 1987, the Statement of Financial Position stated assets and liabilities at the exchange rate in effect at the date of issue and reflected a Provision for Unrealized Foreign Currency Losses. An accounting policy change was made in 1987–88 whereby the annual amortization of fluctuation in currency values with respect to foreign currency debt uses the March 31 rate of exchange, as compared to the previous years' practice of using the average rate of the three preceding calendar years. This has the effect of increasing foreign exchange losses and accrued interest expense related to prior years by $205 million and $17 million respectively. The unamortized amount shown for 1987 has not been recalculated to reflect the new accounting policy.

12. VALUATION ALLOWANCES

As the result of an accounting policy change implemented in the 1987–88 fiscal year, changes in valuation allowances are charged to an appropriation expenditure. Prior to the 1987–88 fiscal year, such charges were recorded directly in the Excess of Liabilities Over Financial Assets Account. In implementing the accounting policy change the following adjustments were required retroactive to March 31, 1987 and were charged to the Excess of Liabilities over Financial Assets.

	($ millions)
Manfor Ltd.	$ 127
Manitoba Housing and Renewal Corporation	7
Leaf Rapids Town Properties Ltd.	3
	$ 137

The March 31 valuation allowance balance of $206 million (1987–$58 million) is after having given effect to the write-down of some loans, advances and long-term investments where it has been determined that the realizable value has been permanently impaired.

	($ millions) 1988	($ millions) 1987
Manitoba Agricultural Credit Corporation	$ 4.4	$ –
Manitoba Energy Authority	3.3	1.4
Venture Capital Program	1.4	–
Manfor Ltd.	–	128.5
Manitoba Development Corporation	–	37.2
Manitoba Housing and Renewal Corporation	–	12.7
Tantalum Mining Corporation	–	2.5
Venture Manitoba Tours	–	1.7
Other	0.8	0.8
	$ 9.9	$ 184.8

13. CRIMINAL INJURIES COMPENSATION BOARD

Beginning with the 1987–88 fiscal year the Province is accruing the liability for long-term awards made by the Criminal Injuries Compensation Board. The accumulated liability at March 31, 1988 is $15 million. This has the effect of increasing expenditure related to prior years by $13 million and 1987–88 expenditure by $2 million.

14. LEGISLATIVE AUTHORITY FOR BORROWING AND EXPENDITURE

Limits established by legislation for borrowing funds and for expenditure from appropriations are shown below along with information regarding any non-compliance with these limits that may have occurred during the fiscal year.

1) BORROWING:

	($ millions) Appropriation Acts	($ millions) Loan Acts
Incremental Non-Lapsing Authority Provided in 1987 Acts	$ 700	$ 611
Amount Used During the Fiscal Year Ended March 31, 1988	291	38
Available for Future Years	$ 409	$ 573
Unused Borrowing Authority From Prior Years	25	1,657
	$ 434	$ 2,230
Less: Encumbered for Specific Purposes	–	12
Unencumbered Borrowing Authority at March 31, 1988	$ 434	$ 2,218

2) EXPENDITURE:

A) CHANGES FROM ORIGINAL BUDGET ESTIMATE

The original budget estimate shown on the Statement of Revenue and Expenditure consists of the statutory and voted appropriations that are authorized in the Main and Supplementary Estimates. This amount was increased during the fiscal year as follows:

	($ millions)
ORIGINAL:	
Main and Supplementary Estimates (including general statutory appropriations)	$ 4,218
INCREASED BY:	
Special Warrants	131
Adjustment of estimated amount of statutory appropriations to actual expenditure	22
Total Authorized Expenditure	$ 4,371

B) NON-COMPLIANCE WITH APPROPRIATION LIMITS

i) The following five voted appropriations of the Government were placed in a net overexpended position as a result of adjustments made to reflect the changes in accounting policy as defined in the Application of Accounting Policies, section IV:

ATTORNEY-GENERAL APPROPRIATION IV–6	
Protection of Individual and Property Rights	$ 2,641,530
BUSINESS DEVELOPMENT AND TOURISM APPROPRIATION XXXIII–2	
Business Development	$ 781,956

NATURAL RESOURCES APPROPRIATION XII–1		
Administration and Finance	$	378,807
EMERGENCY INTEREST RATE RELIEF APPROPRIATION XXVIII–1		
Emergency Interest Rate Relief Program	$	434,241
MANITOBA JOBS FUND APPROPRIATION XXIX–1		
Manitoba Jobs Fund	$	4,212,705

ii) In addition, nine other appropriations of the Government had late accounts paid in the 1988–89 fiscal year that were in excess of the balance remaining in the appropriation at March 31, 1988. These late accounts paid 45 days after year end are excluded from March 31, 1988 liabilities by the existing accounting policy. These late accounts result in non–compliance with appropriation limits established for the respective programs.

iii) In addition, a number of adjustments resulting from changes in the valuation allowance accounting policy were recorded as expenditures although no appropriation had been provided for this purpose:

Crown Corporation Expenditures/Losses:		
Manitoba Development Corporation re Flyer	$	5,851,792
Manitoba Potash Corporation	$	5,389,586
Manitoba Properties Inc.	$	1,775,000
Manitoba Energy Authority	$	1,672,058
Manitoba Hazardous Waste Management	$	300,313
Manitoba Oil and Gas Corporation	$	608,536
Venture Manitoba Tours Ltd.	$	265,115
Leaf Rapids Town Properties Ltd.	$	55,253
Manitoba Mineral Resources Ltd.	($	1,495,616)
Extraordinary Items:		
Manitoba Public Insurance Corporation	$	59,060,000
Workers Compensation Board	$	16,385,887

15. COMPARISON TO BUDGET ESTIMATE

For purposes of providing a meaningful comparison of changes in the financial position with the budget estimate, in addition to the budget data, other internally developed management information has also been included in the budget estimate information.

16. COMPARATIVE FIGURES

The Provincial Auditor qualified the Province's 1986–87 financial statements because of the Province's treatment of increases in valuation allowances and crown corporation losses. In order to preclude a qualification in the current Public Accounts with respect to the comparative year, 1987 expenditures and therefore the 1987 deficit have been restated to reflect these items as expenditures. This restatement is consistent with the 1988 treatment and presentation of such items. Certain of the 1987 Statement of Financial Position figures have been restated to be consistent with the 1988 presentation as described in the changes to accounting policy notes.

GOVERNMENT OF THE PROVINCE OF MANITOBA

ACCOUNTING POLICIES-STATEMENT AND APPLICATION

STATEMENT OF ACCOUNTING POLICIES

The basic accounting policies followed by the Government of Manitoba, which have been applied in the preparation of the Consolidated Fund Financial Statements are summarized below. These policies have been developed and are applied in accord with the provisions of the Financial Administration Act, which is Chapter F55 of The Continuing Consolidation of The Statutes of Manitoba. Further information regarding their application to the financial transactions of the Government is provided in the section entitled "Application of Accounting Policies".

I. THE REPORTING ENTITY

The financial transactions of the Government are recorded in "The Consolidated Fund". The activities of The Consolidated Fund are divided into the "Operating Fund", which records the operational activities of the Government, and the "Trust Fund", which records the trust administration function.

Financial statements prepared for the "Operating Fund" report amounts recorded as Government revenue, expenditure on Government programs, the lending and investment of Government funds and the borrowing and repayment of debt. Separate financial statements are prepared for the "Trust Fund" which report the activities in the various categories of trust money administered by the Government.

The financial operations of provincial Crown Corporations, Agencies, Boards and Commissions are reflected in the Operating Fund financial statements to the extent that:

1. they receive money from or pay money to the Government, or
2. any non-recoverable deficits they incur are adjusted against the amounts loaned, advanced or invested in them by the Government, or
3. where the Government has no such loans, advances or investments involved, any losses they incur which are assumed by the Government are recorded as accrued charges.

II. BASIS OF ACCOUNTING FOR REVENUE AND EXPENDITURE

A. MODIFIED ACCRUAL ACCOUNTING

The revenues and expenditures of the Government are recorded on an accrual basis with exceptions noted as follows:

1. INCOME FROM CANADA-MANITOBA FISCAL ARRANGEMENTS - This income is recorded on a cash basis except that revenues received in advance of when they are earned are deferred to the appropriate fiscal year.
2. FEES AND OTHER REVENUES - Collections are recorded on a cash basis.
3. SALARIES AND WAGES - Salaries and wages are recorded as expenditures in the year in which they are paid. No accrual is made for salaries earned but not paid at year end, nor is any accrual recorded for salary related benefits such as vacation earnings.
4. PENSION - The Province does not record the annual cost of pension benefits earned by the civil service, teachers and members of the legislative assembly. The annual cost recorded by the Province is the government's share of pensions paid to retired employees, teachers and legislators.
5. GOODS AND SERVICES — A period of forty-five days after the end of the fiscal year is allowed for the payment of operating expenditures incurred during that fiscal year. Supplier accounts not paid within this period are treated as expenditures of the following year.
6. CAPITAL ASSETS AND INVENTORIES - Expenditures for the acquisition and/or construction of physical assets, acquisition of inventories and other deferred expenditures are not considered to differ from any other service to the public and accordingly are treated as an expenditure of the year in which the expenditure is made.

B. GROSS ACCOUNTING CONCEPT

Revenues and expenditures are recorded in gross amounts with the following exceptions:

1. The municipal share of Individual and Corporation Income Taxes, which is paid to Municipalities in accordance with the Provincial-Municipal Tax Sharing Act, is not recorded as revenue by the Government.
2. Refunds of revenue are treated as reductions of current year revenue.
3. Decreases in valuation allowances previously provided are treated as reductions to expenditure.
4. Recoveries from Crown Corporations and Government Agencies of the debt servicing costs on self-supporting debt are recorded as a reduction of Public Debt expenditure. The same treatment is also given to income earned on investments and interest on advances.

III. ASSETS AND LIABILITIES

1. The assets and liabilities reported in the financial statements are financial claims. The assets are claims by the Government on other parties and the liabilities are claims by other parties on the Government.
2. Physical assets, including inventories, do not represent financial claims on others. Therefore they are not reported as assets at fiscal year end. The Government has substantial holdings of physical assets such as buildings, highways and educational and health facilities, which will be used to provide services in future periods and may tend to appreciate in value over time.

3. Loans, advances and long-term investments held by the Government are subject to annual valuation. A Valuation Allowance is used to reflect the estimated change in value of these assets.
4. Investments, including sinking funds, made in foreign currencies are recorded at the Canadian dollar equivalent of the par value based on the exchange rate in effect at March 31.
5. Bonds, debentures and other long-term debt are recorded as liabilities at the par value of the issue. Issues in foreign funds are recorded at the Canadian dollar equivalent of the par value based on the exchange rate in effect at March 31. The foreign exchange fluctuation is amortized over the life of the debt issue. Any discount, premium or commission incurred at the time of issue of the debt is also amortized over the life of the debt issue.

   Sinking funds are maintained in accordance with the legal requirements of the debt instruments and the Financial Administration Act.

IV. GUARANTEED AND INDIRECT LIABILITIES

In addition to having direct debt, the Government also acts as a guarantor of securities issued by various other entities. The debt issued by Crown Corporations, Agencies, Boards and Commissions and guaranteed by the Government is largely self-supporting. Other guaranteed debt for schools, universities and hospitals is serviced in whole or in part from appropriations of the Consolidated Fund.

Legislation requires the maintenance of Sinking Funds for the retirement of the debt of most Crown Corporations, Agencies, Boards and Commissions. These Sinking Funds are held in Trust by the Minister of Finance. The Crown Corporation, Agency, Board or Commission to whom the debt applies make annual contributions to the Sinking Fund.

Contingent Liabilities that result from other financial activities of the Government are reported in the notes to the financial statements.

APPLICATION OF ACCOUNTING POLICIES

The following outlines the application of the accounting policies to the financial transactions of the Government:

I. REVENUE

A. Amounts received in April from Agents for provincially collected taxes pertaining to the year just ended are recorded as revenue receivable. Amounts not received by April 30 are not accrued, but are considered revenue in the following year.

B. Where, pursuant to an agreement or arrangement, money is received in advance relating to projects for which expenditures are to be made in more than one fiscal year, the money is deemed to have been received in each fiscal year in proportion to the related expenditure made in the respective fiscal year.

C. The accounts are kept open until June 30 to reflect any adjustments regarding revenue from the Government of Canada under the Canada-Manitoba Fiscal Arrangements.

D. Fees and other revenue collections are recorded on a cash basis.

II. EXPENDITURE

A. The following practices are applicable when recording the public debt costs of the Province:

1. An accrual is made to March 31 for interest receivable from loans, advances and investments.
2. The annual fluctuations resulting from the conversion of foreign currency investments to the Canadian dollar equivalent at March 31 are amortized over the remaining life of the investment.
3. An accrual is made to March 31 for the interest payable on bonds, debentures and other long-term debt and on trust funds invested with the Minister of Finance. In the case of foreign issues, the accrual is calculated on the Canadian dollar equivalent of the par value of the outstanding debt based on the exchange rate in effect at March 31.
4. The annual fluctuations resulting from the conversion of outstanding foreign currency borrowings to the Canadian dollar equivalent at March 31 are amortized over the remaining life of the respective issues. Where an issue of debt is called for redemption prior to maturity and refinanced with another issue of debt, the original debt is converted at the exchange rate in effect at the date of redemption and the fluctuation is amortized over the term of the first replacement issue. However, if the remaining term of the original issue is one year or less, the fluctuation is fully expensed in the year of redemption.
5. Any discount, premium or commission incurred on the issue of long-term debt is amortized over the life of the respective debt issue.

B. Increases (decreases) to the Valuation Allowance, which represents an estimate of the change in recoverable value of loans, advances and long-term investments, are charged (credited) to appropriations.

C. Payments made by the Government for capital purposes do not represent claims on others and are therefore not reported as assets, but rather as expenditures. Such expenditures are classified as "expenditures related to capital" in the Main Estimates of Expenditure and are defined as follows:

1. Expenditures for property of all kinds, both real property and chattels, purchased or self-constructed for use by Government that are deemed to have an economic life in excess of one year;
2. Expenditures for projects or activities which entail major renewals, modification or modernization by own labour forces or by contractors on behalf of the Government and which significantly prolong the expected economic life of the asset;

3. The principal portion of a debt repayment when the debt was incurred to acquire a physical asset and the acquisition cost of the physical asset was not previously reflected in the Consolidated Fund as an expenditure; or
4. Grants or assistance payments to municipalities, school divisions, external agencies, commercial organizations and private individuals which are known to be for the purchase, construction or improvement of physical assets.

D. Expenditures, other than salaries and wages, related to the fiscal year just ended, processed and paid during the 45 days after the end of the fiscal year, are recorded as expenditures for the fiscal year just ended. Payments for goods and services made after the 45-day period pertaining to the fiscal year just ended are treated as expenditures of the following year.

However, accrual of expenditures is allowed after the 45-day period if required to show the accurate financial condition of the Government, pursuant to authority provided under Section 8 of the Financial Administration Act. In this regard, any entries made after June 30 must be disclosed in the Public Accounts.

III. ASSETS AND LIABILITIES

The Statement of Financial Position is prepared in accordance with the following practices:

1. CASH AND EQUIVALENTS

This classification is comprised of the temporary investments of the Province which are increased/reduced by the net balance/overdraft in the Province's bank accounts. It is further reduced by the amount of uninvested cash belonging to the Provincial Sinking Fund. This cash is designated as part of the Provincial Sinking Fund and will be made available for investment when required.

Temporary investments are securities held as investments of the Government's available cash flow. They are generally comprised of money market instruments such as term deposits and negotiable securities which are intended to be held for a short term. All investments are shown at cost. The net bank balance/overdraft has been adjusted for cheques issued prior to and not presented for payment at March 31st and for cash in transit.

2. AMOUNTS RECEIVABLE

Amounts receivable include estimates at March 31 for provincially collected tax revenues, interest on investments and advances, the uncollected balance of claims related to shared-cost agreements with the Government of Canada and significant amounts expected to be recovered from Crown Corporations, Agencies, Boards and Commissions.

3. LOANS AND ADVANCES

Advances to Crown Corporations, Agencies, Boards and Commissions, which are generally interest bearing, are shown under this heading.

The Sinking Funds provided by Crown Corporations, Agencies, Boards and Commissions for repayment of the debt issued by the Province to fund advances to these entities are deducted from the advances.

Certain of the Crown Corporations are charged with responsibility for administering Government programs for which they receive funds from Government appropriations. These funds are applied by the Corporation towards the program administration cost, including, in some cases, a portion of the interest they are charged on these advances. The principal repayment for certain of the advances is dependent on total or partial funding from future appropriations of the Operating Fund.

Loans and advances to Municipal Corporations or others under various Government programs are included here. Certain of these amounts may be interest bearing depending on the nature of the program.

All loans and advances are subject to annual valuation to reflect reductions from their recorded value to their estimated realizable value. Where a loan or advance has been partially written-down to reflect a permanent decline in its realizable value, it is carried at its decreased value. Otherwise, it is recorded at cost. Once written-down, the value of the asset is considered to be permanently reduced. A subsequent increase in value is recognized only when realized.

4. LONG-TERM INVESTMENTS

The majority of the Province's long-term investments consist of shares and debentures of Crown Corporations. All investments are subject to annual valuation to reflect reductions from their recorded value to their estimated realizable value. Where an investment has been partially written-down to reflect a permanent decline in its realizable value, it is carried at its decreased value. Otherwise, it is recorded at cost. Once written-down, the value of the asset is considered to be permanently reduced. A subsequent increase in value is recognized only when realized.

5. VALUATION ALLOWANCE

A valuation allowance is provided to reflect decreases in the value of loans, advances and long-term investments and is adjusted annually for changes that have occurred in the estimated realizable value of these assets. Increases in the valuation of allowances are recorded as expenditures, and conversely decreases in the valuation allowance are treated as a reduction to expenditures.

Loans, advances or long-term investments may be written-down in the accounts of the Government, pursuant to authority provided under the Financial Administration Act. The write-down is applied to the valuation allowance, whether it occurs in the year the valuation allowance is provided or in a subsequent year.

The valuation allowance is determined as follows:

A. CROWN CORPORATIONS, AGENCIES, BOARDS AND COMMISSIONS — LOANS, ADVANCES AND LONG-TERM INVESTMENTS

1. OPERATING DEFICITS
   The valuation allowance is used to provide for losses, that are other than temporary declines, in value of the Government's investments made by way of loans, advances or purchase of shares. The valuation allowance is based on the financial results applicable to the most recent fiscal year completed prior to April 1. Where an assessment of the accumulated deficit indicates a prospect for recovery from future operations, the amount of valuation allowance is adjusted accordingly.
2. NON-RECOVERY OF CAPITAL INVESTMENTS
   A valuation allowance may be provided where there is reasonable evidence that the Province's investment will not be realized.

If the Government has more than one type of investment in an organization (e.g. common shares, preferred shares and debentures), the valuation allowance is assigned against the investments in order of priority on liquidation.

B. OTHER LONG-TERM INVESTMENTS
The valuation allowance is used to record losses, that are other than temporary declines, in value of the Government's investments in other than Crown Corporations, Agencies, Boards and Commissions. The valuation allowance is based on an annual valuation of the investments.

C. LOAN AND SUPPORT PROGRAMS
The valuation allowance is used to provide for the estimated amounts not recoverable under a Government loan or support program. The valuation allowance for doubtful accounts that has been established for that loan or support program is recorded by means of a valuation allowance placed against the loan or advance used to fund the program. Increases to the valuation allowance are recorded as an expenditure regardless of the timing of the write-off of the uncollectible accounts, such write-off being applied directly to the valuation allowance.

6. **AMOUNT OWING TO THE TRUST FUND**
A large portion of this money has been deposited with the Minister of Finance in accordance with the terms of the legislation regulating the management of sinking funds and the investment of surplus cash of Crown Corporations, Agencies, Boards and Commissions. Such deposits are pooled with other available funds of the Province and are accorded a market rate of interest.

7. **ACCOUNTS PAYABLE, ACCRUED CHARGES AND DEFERRED REVENUE**
Cheques issued during the forty-five day period after March 31, in payment for goods and services pertaining to the fiscal year just ended are shown as accounts payable rather than as outstanding cheques.

Accrued charges represent interest payable on provincial securities and Trust Funds, and include unfunded liabilities relative to crown entities and external agencies at March 31.

Deferred revenue consists of money received from taxation and shared-cost agreements which does not relate to the fiscal year just ended. It will be recorded as revenue in the appropriate year.

8. **PROVISION FOR FOREIGN CURRENCY FLUCTUATION ON MANITOBA HYDRO DEBT**
The Province retains the obligation to pay only the amounts that have been provided in the Province's accounts in respect of this debt up to March 31, 1987. The responsibility for foreign exchange gains or losses associated with the translation to Canadian dollars of the Manitoba Hydro United States dollar denominated debt was transferred to Manitoba Hydro effective April 1, 1987.

9. **BORROWINGS**
This category includes bonds, debentures, secured loans from the Government of Canada, treasury bills and notes. Securities issued in Canadian funds are recorded at par value. Securities issued in foreign funds are recorded at the Canadian Dollar equivalent of the par value based on the exchange rate in effect at March 31.

Borrowings are reduced by the unamortized balance of the discount or premium, and commission incurred on the issue of the long-term debt which will be amortized over the remaining term of the debt issues for which these costs were incurred.

Borrowings are also reduced by sinking funds which are maintained in accordance with the legal requirements of the Province's direct debt instruments and the Financial Administration Act. Money is allocated annually to these sinking funds on the following basis:

A. a sum equal to 3% of the aggregate amount of general purpose debt, in Canadian Dollars converted at the date of issue, outstanding at the end of the preceding fiscal year; and

B. all earnings derived from investing the sinking fund.

In addition, principal repayments of advances by agencies which are funded by the issue of provincial securities are deposited to the sinking fund, provided that the principal repayments are made prior to the maturity date of such securities.

The total shown for sinking funds also includes sinking fund money provided by Crown Corporations, Agencies, Boards and Commissions with respect to debt incurred on their behalf by the Government.

10. **UNAMORTIZED FOREIGN CURRENCY FLUCTUATION**
This balance represents the unamortized portion of unrealized foreign currency gains or losses on the conversion of the assets and liabilities of the Province to Canadian dollars at March 31 rates. It also includes the unamortized portion of realized foreign currency gains or losses on the conversion

of the foreign currency debt called prior to maturity using the rates in effect at the time of the call.

When translation of foreign currency debt occurs at March 31, any fluctuation since the previous fiscal year–end is added to the unamortized balance for each debt issue and the resulting amount is amortized over the remaining term of the issue. The amortization is applied to the Public Debt expenditure account. When the debt matures, the actual loss (gain) from the amortized value is charged (credited) to the expenditure account.

Where an issue of debt is called for redemption prior to maturity and refinanced with another issue of debt, the original debt is revalued at the date of redemption. Any foreign exchange gain or loss compared to the amortized value is then amortized over the term of the replacement issue. This applies to only the first replacement issue. If further replacement issues are involved, the unamortized fluctuation is expensed. As well, if the remaining term of the original issue is one year or less, the unamortized fluctuation is fully expensed in the year of redemption.

11. EXCESS OF LIABILITIES OVER FINANCIAL ASSETS AND OTHER OBLIGATIONS HELD BY THE PROVINCE CONSIDERED TO BE SIMILAR IN NATURE

A. SERIAL DEBENTURES OF SCHOOL DIVISIONS AND DISTRICTS, TRANSFERRED FROM THE MANITOBA SCHOOL CAPITAL FINANCING AUTHORITY

The School Capital Financing Authority Act was repealed April 1, 1983 at which date all investments and money held by the Authority, as well as debt payable by the Authority, was assumed by the Government. The investments transferred to the Government consist of serial debentures issued by school divisions and districts for which the Government is primarily responsible for repayment. These securities are therefore included in this category because they do not represent a claim on other parties.

The estimate of expenditure provides an annual appropriation in the Consolidated Fund to cover the principal and interest costs of these debentures. The cash drawn from this appropriation for the required annual principal repayments is transferred to the Province's sinking fund where it will be used for repayment at maturity of the debt assumed from the Authority. A similar treatment would be accorded any proceeds from the sale of the school debentures.

B. SECURITIES RECEIVED FROM THE SALE OF LAND AND BUILDINGS TO MANITOBA PROPERTIES INC.

Land and buildings, having an aggregate value of $917 million, were sold to Manitoba Properties Inc. under various sales agreements during 1984–85 and 1985–86. In addition to cash, the purchase consideration received from the sale consisted of common shares of Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. and promissory notes from Manitoba Properties Inc.

The recorded value of the common shares has been reduced by a special valuation account which was established from a portion of the sale proceeds and is used to reflect the potential diminution in value of these shares as the result of dividends paid to preferred shareholders of Manitoba Properties Inc. on an annual basis. Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. jointly own all the common shares of Manitoba Properties Inc. and the value of their equity in these shares could decrease annually with the payment of dividends by the latter to preferred shareholders.

Interest payable to the Province on the promissory notes is funded from annual rental payments made by the Province to Manitoba Properties Inc. and is therefore dependent on future appropriations of the Consolidated Fund. These securities are therefore included under this category because they do not represent a claim on other parties.

C. EXCESS OF LIABILITIES OVER FINANCIAL ASSETS

This account and the two accounts previously described represent the difference between liabilities, which are financial claims owing by the Government, and financial assets, which are financial claims receivable by the Government. Since the physical assets and materials inventories of the Government do not constitute a financial claim receivable by the Government, they are not considered in the determination of this balance.

IV. CHANGES IN ACCOUNTING POLICY

Section 10 of the Financial Administration Act requires disclosure of any change in the accounting policies of the Government from those followed in the preceding fiscal year.

A. The Province has calculated the 1987–88 amortization of fluctuations in currency values with respect to foreign currency denominated debt using the March 31 exchange rate. Previously, it used the average of the exchange rates that were in effect during the three preceding years.

This has resulted in an increase to amortized fluctuation losses for prior years of $205 million, and a decrease in 1987–88 costs of $12 million. The change has also affected interest on public debt payable in foreign currencies, as well as the amortization of debt issue costs resulting in a further charge to prior years of $17 million and an increase to 1987–88 costs of $2 million.

Concurrent with this change, borrowings will be presented on the Statement of Financial Position at the Canadian dollar equivalent of the par value based on the exchange rate in effect at March 31.

The unamortized fluctation is presented as an offset. Previously these borrowings were presented at the Canadian dollar equivalent of the par value at the date of issue, augmented by the amount of fluctuation that had been amortized. This revised presentation has been adopted at March 31, 1988 and at March 31, 1987, for comparative purposes. However, expenditures for the fiscal year ended March 31, 1987 have not been restated to reflect the effect of the change.

B. It was indicated, in the 1986-87 Public Accounts, that valuation allowances considered to be non-recoverable would be recorded as an expenditure appropriation in the year subsequent to the year in which this determination was made. This policy has now been changed so that the loss is recorded in an expenditure appropriation the same year the loss has been determined. In the case of accumulated deficits of Crown Corporations, Agencies, Boards and Commissions, it is no longer a requirement that the asset be written-down in order to charge an appropriation. Changes in the allowance are charged (credited) to expenditure regardless of the timing of the write-down of the asset. Valuation Allowance increases of $21 million were charged to 1987-88 expenditure which would have been charged to 1988-89 under the old policy.

C. The unfunded liability for future costs of awards made under the Criminal Injuries Compensation program is now recorded at each fiscal year-end and the increase in liability is added to the annual cost of the program. The costs of the program were previously recorded on a cash-flow basis. These costs, $2 million for 1987-88 and $13 million related to prior years, had not previously been reflected in the Government's accounts.

D. The Province has assumed liabilities for losses, previously considered to be outside the Consolidated Fund, incurred by the Manitoba Public Insurance Corporation and the Workers Compensation Board. This has resulted in the recording of expenditure of $75 million for 1987-88. Prior to this change, such losses were only recognized if the Government had a loan, advance or investment recorded for the crown entity.

V. ENTRIES MADE SUBSEQUENT TO JUNE 30, 1988

Section 8(2) of the Financial Administration Act requires disclosure of entries made after June 30th respecting transactions of the preceding year. Accordingly, the following are reported:

A. ENTRIES TO REFLECT ACCOUNTING POLICY CHANGES

The changes in accounting policy described in Section IV above were based on recommendations resulting from a study requested by the Government. These recommendations were received subsequent to June 30, 1988, and therefore the related entries were made subsequent to that date.

B. WRITE-OFF OF LOANS, ADVANCES AND LONG-TERM INVESTMENTS

Authorization for the write-off of $10 million of loans, advances and long-term investments, as detailed in note 12 to the Financial Statements, was provided by order-in-council 1266/88 approved on October 19, 1988, and was effective retroactively to March 31, 1988.

NOTE: Prior to March 31, 1988, debt payable in foreign currencies was stated at the Canadian dollar equivalent converted at the exchange rate in effect at the date of issue. As a result of a change in accounting policy, debt payable in foreign currencies has been stated at the Canadian dollar equivalent converted at the exchange rate in effect at March 31, 1988. The change in accounting policy has increased the March 31, 1988 Bonds and Debentures payable by $1,004,389,989 million. The March 31, 1987 figure has also been restated, using the exchange rate in effect at March 31, 1987. This has resulted in an increase to the March 31, 1987 Bonds and Debentures payable of $999,123,111.

The School Capital Financing Authority Act was repealed April 1, 1983 at which date all investments and money held by the Authority, as well as debt payable by the Authority, were assumed by the Government. The investments transferred to the Government consisted of serial debentures issued by school divisions and districts for which the Government is primarily responsible for repayment. Accordingly, an annual appropriation is made in the Consolidated Fund to cover the principal and interest costs of these debentures.

The cash drawn from this appropriation for the required annual principal repayments is transferred to the Province's sinking fund where it will be used for repayment of the debt assumed from the Authority. A similar treatment would be accorded any proceeds from the sale of the school debentures.

NOTE: During the fiscal years ended March 31, 1985 and March 31, 1986, the Province sold land and buildings with an aggregate value of $916,588,539 to two Crown Corporations, Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. Under the purchase arrangement, the properties were resold to Manitoba Properties Inc. at the same price. The Province received the following consideration for the above noted sales:

Common Shares of Manitoba Properties Leasing Inc.	$ 170,493,391
Common Shares of Manitoba Properties Management Inc.	170,493,391
Promissory Notes of Manitoba Properties Inc. due July 31, 1994	181,708,123
Cash	393,893,634
Total Proceeds	$ 916,588,539
Less: Allocation of Proceeds to Special Valuation Account	340,956,682
Balance of Proceeds Applied to Excess of Liabilities Over Financial Assets Account	$ 575,631,857

No further land or buildings have been sold, however, during the fiscal year ended March 31, 1987. $22,000 of land was repurchased by the Province and the amount of Promissory Notes referred to above were adjusted to reflect the repurchase.

On resale of the Assets to Manitoba Properties Inc., the two Crown Corporations received common shares of Manitoba Properties Inc. The resale agreement stipulated that Manitoba Properties Inc. would record the issue of these shares in its capital account at a value of $20,000 for shares issued to March 31, 1985 and an additional $10,100 for shares issued to March 31, 1986. For the fiscal years ended March 31, 1985 and March 31, 1986 $209,246,896 and $131,709,786 respectively were designated and accounted for as contributed surplus.

The contributed surplus was subsequently transferred to retained earnings and is available for the payment of annual dividends to preferred shareholders of Manitoba Properties Inc. Payment of dividends from retained earnings has the effect of reducing the value of the Manitoba Properties Inc. shares owned by Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. and would have the collateral effect on the shares in these two corporations owned by the Province. As a result, the Province has allocated a portion of the sale proceeds equal to the contributed surplus to a special valuation account.

This account is used to reflect the diminution in value of the common shares of Manitoba Properties Leasing Inc. and of Manitoba Properties Management Inc., as a result of dividends paid to preferred shareholders of Manitoba Properties Inc. As of March 31, 1988, the value shown for the common shares of each of these two Crown Corporations has been reduced by $58,369,396 and the valuation account by $116,738,792 to reflect dividend payments as follows:

Dividends paid by MPI during its fiscal years ended January 31, 1985 to January 31, 1987	$ 79,818,053
Dividends paid by MPI during its fiscal year ended January 31, 1988	36,920,739

Balance end of year	$ 4,131,493,755	$ 3,460,096,633

NOTE 1: An accounting policy change was made in 1987–88 whereby the annual amortization of fluctuations in currency values with respect to foreign currency debt uses the March 31 rate of exchange, as compared to the previous years' practice of using the average rate of the three preceding calendar years. This has the effect of increasing foreign exchange losses and accrued interest expense related to prior years by $204,793,943 and $17,593,401 respectively. The effect for the 1987–88 fiscal year is a decrease in foreign exchange losses of $11,550,628 and an increase in accrued interest expense of $2,166,095.

NOTE 2: As the result of an accounting policy change implemented in the 1987–88 fiscal year, changes in valuation allowances are charged to an expenditure appropriation in the same fiscal year the loss has been determined. Prior to the 1987–88 fiscal year such changes were recorded directly in the Excess of Liabilities Over Financial Assets Account. In implementing the accounting policy change the following adjustments were required retroactive to March 31, 1987:

Manfor Ltd.	$127,136,808
Manitoba Housing and Renewal Corporation	6,973,604
Leaf Rapids Town Properties Ltd.	3,469,225
	$137,579,637

NOTE 3: Beginning with the 1987–88 fiscal year, the Province is accruing the liability for long term awards made by the Criminal Injuries Compensation Board. The accumulated liability for these awards at March 31, 1987 was $12,700,831. The liability pertaining to the 1987–88 fiscal year is $2,680,404.

NOTE 4: The March 31, 1987 deficit figure has been increased by $57,269,151 due to the restatement of the 1986–87 actual expenditure to be consistent with the 1987–88 presentation. This increase is accounted for as follows:

Increase in Valuation Allowance	$ 49,636,112
Unfunded Liability for Manitoba Development Corporation Losses	7,633,039
	$ 57,269,151

FINANCIAL COMMITMENTS

As at March 31, 1988

		MARCH 31, 1988	MARCH 31, 1987
		(in thousands)	
1.	HOSPITALS AND PERSONAL CARE HOMES Hospitals and personal care homes have obtained financing for capital construction by issuing debentures, or arranging for mortgages or long-term bank loans. The Hospital Capital Financing Authority, which was established in 1972, approves the issue of all securities and assists in obtaining an orderly market for the sale of the securities to finance these capital expenditures. Although this indebtedness is not guaranteed by the Government, funds required for the payment of principal and interest related to the approved capital debt incurred for the construction and acquisition of facilities for the provision of insured services are included in the expenditure of the Manitoba Health Services Commission. The main source of Commission funds is from the Consolidated Fund of the Province of Manitoba. The amounts at right include $22,347,064 ($23,191,636 as at March 31, 1987) National Housing Act mortgages which are subsidized by the Canada Mortgage and Housing Corporation. $55,025,000 ($59,389,000 as at March 31, 1987) were held in investment accounts managed by the Minister of Finance.	$ 404,396	$ 362,102
	In addition to the approved outstanding debt, lines of credit up to $72,445,000 ($100,000,000 as at March 31, 1987) have been approved to finance capital projects currently in process. On completion of these projects, the borrowings will be converted to long-term debt.		
2.	PUBLIC SCHOOLS School Divisions nave obtained long term financing for capital construction projects by issuing debentures. Although these debentures are not guaranteed by the Government, funds required for payment of the principal and interest related to the capital debt incurred for the construction and acquisition of facilities approved by the Public Schools Finance Board are mainly provided from the Consolidated Fund of the Province of Manitoba. Of the $251,838,048 outstanding at December 31, 1987, $251,507,328 ($218,733,000 as at December 31, 1986) represented debt issued with Public Schools Finance Board approval and for which funds for debt servicing is mainly provided from the Consolidated Fund, and $251,584,000 ($218,655,000 as at December 31, 1986) were held in investment accounts managed by the Minister of Finance.	251,838	219,125
3.	MANITOBA HOUSING AND RENEWAL CORPORATION The amounts owing at right to the Canada Mortgage and Housing Corporation are not guaranteed by the Government. Servicing of this indebtedness is partially covered from appropriation payments made in respect of provincial housing subsidies for low income earners.	229,436	230,743
4.	MANITOBA WATER SERVICES BOARD The amounts owing at right to the Canada Mortgage and Housing Corporation are not guaranteed by the Government but payments are required from appropriations on account of partial servicing of this indebtedness.	2,254	2,392
5.	BRANDON COLLEGE INCORPORATED (Brandon University) The Province has agreed to service two mortgages obtained by Brandon University from Canada Mortgage and Housing Corporation.	2,667	2,698
6.	MANITOBA ARTS COUNCIL The Government has committed that the annual grant to the Manitoba Arts Council will not be less than $15,000 through the 1993/94 fiscal year so that the Manitoba Arts Council can provide the Winnipeg Symphony Orchestra Inc. with funds to enable it to repay the loan amounts at right.	90	105

CONTINGENT LIABILITIES

As at March 31, 1988

1. By authority of the Elderly Persons Housing Act, the principal balance of mortgages made by Canada Mortgage and Housing Corporation guaranteed by the Province amounted to $1,016,276 as at March 31, 1988.

2. Pursuant to Orders-in-Council 825/80, 1345/82 and 206/84, agreements have been signed with the Canadian Indemnity Company and The Continental Insurance Company for the Province to guarantee up to a maximum of $20,000,000, and $33,000,000 respectively of Flyer Industries Limited performance bonds on contracts to supply buses for various transit organizations. The aforementioned Orders-in-Council have been rescinded as the guarantee of these performance bonds is deemed to be covered under the guarantee provided by the Government pursuant to Order-in-Council 763/86 to the purchaser of Flyer Industries Limited in July, 1986 guaranteeing all the obligations of Manitoba Development Corporation arising out of the sale of Flyer Industries Limited.

3. Pursuant to Order-in-Council 287/80, the Province is authorized to guarantee up to a maximum of $150,000,000 Promissory Notes issued by The Manitoba Hydro-Electric Board for temporary purposes. As at March 31, 1988, no such Notes were outstanding.

4. Pursuant to Order-in-Council 150/81, the Province is authorized to guarantee up to a maximum of $25,000,000 Promissory Notes issued by The Manitoba Telephone System for temporary purposes. As at March 31, 1988, no such Notes were outstanding.

5. Litigation — There are approximately 100 claims outstanding at March 31, 1988 in which the Government has been named. No provision has been made for these claims in the accounts at March 31, 1988 as the likelihood for success of these claims is not established.

6. The Province has been authorized to guarantee the following loans and bank lines of credit:

	1986-1987	1987-1988
Refund of prior year's revenue	$ 359,030	$ 463,483
Refund of current year's revenue	29,233,445	27,228,399
	$29,592,475	$27,691,882

NOTE 2: The actual and estimated revenue of the 1987-1988 fiscal year as well as the 1986-1987 revenue has been increased to reflect commissions retained by Revenue Officers. These commissions are deducted at the end of the statement to determine total government revenue.

NOTE 3: Revenue from Individual Income Tax and Corporation Income Tax has been reduced by the Municipal share of these taxes which is paid to Municipalities in accordance with the Provincial-Municipal Tax Sharing Act, as follows:

	1986-1987	1987-1988
Individual Income Tax	$26,430,198	$30,429,673
Corporation Income Tax	9,077,222	9,609,370
	$35,507,420	$40,039,043

NOTE 4: The presentation of the actual revenue for the 1986-1987 fiscal year has been changed to reflect the organizational structure of Departments as established in the 1987-1988 Estimates. Organizational changes made subsequent to the 1987-1988 Estimates are minor in nature and have not been reflected in the amounts presented for that fiscal year.

EXPLANATORY COMMENTS REGARDING REVENUE INCREASES (DECREASES)

As shown on the
Statement of Revenue
For the Year Ended March 31, 1988

The total revenue of $4,038.8 million for the year ended March 31, 1988 has increased from the previous fiscal year's total of $3,386.5 million by $652.3 million. The larger revenue increases and decreases consist of the following (in millions of dollars):

Larger Increases:	
Individual Income Tax	$228.9
Equalization	112.1
Retail Sales Tax	104.7
Levy for Health and Education	60.9
Corporation Income Tax	47.7
Government of Canada — Shared Cost Receipts	24.1
Corporation Capital Tax	17.8
Established Programs Cash Transfer	15.9
Motive Fuel Tax	14.6
Attorney-General — Land Transfer Tax	10.1
Liquor Control Commission	9.6
Revenue Act, 1964, Part I	8.8
Reciprocal Taxation Agreement	4.4
Gasoline Tax	3.8
Education — Sundry	2.4
Highways and Transportation — Automobile and Motor Carrier Licences and Fees	2.3
Tobacco Tax	2.2
	$670.3
Larger Decreases:	
Mining Tax	$ 19.8
Attorney-General — Land Titles Fees	8.4
	$ 28.2
Others: Net Increase	$ 10.2
Net Increase	$652.3

The net increase of $228.9 million in Individual Income Tax and Increases in Equalization and Retail Sales Tax of $112.1 million and $104.7 million respectively, were the largest factors contributing to this increase. Comments on these and other significant increases and decreases as well as significant variances between actual and estimated are made in the following paragraphs.

INDIVIDUAL INCOME TAX ($228.9 million increase)

The increase in Individual Income Tax Revenue of $228.9 million — from $760.1 million for the fiscal year ended March 31, 1987 to $989.0 million for the fiscal year ended March 31, 1988 — is the net result of: an increase of $94.4 million in basic current year entitlements, reflecting a larger share of national basic federal tax for 1987; approximately $72.0 million additional revenue related to the implementation of the Net Income Tax on July 1, 1987, and changes in the higher income surtax and low income tax reduction; an increase of $58.0 million due to differences in the timing of payments between the two fiscal years, primarily attributable to the acceleration of payments in 1987–88; a net increase of $8.3 million in prior years adjustments (a $35.9 million adjustment in 1987–88 compared to a $27.6 million adjustment in 1986–87); and a decrease of $4.0 million due to an increase in payments made under the Provincial Municipal Tax Sharing Agreement.

The 1987–88 revenue is net after transferring Provincial Municipal Tax Sharing Payments of $30.4 million.

The actual revenue received, $989.0 million, exceeded the Estimate by $108.2 million, mainly due to: the acceleration of 1988 payments related to federal tax reform of $51.4 million; higher estimates of 1987 and 1988 tax year entitlements of $21.3 million; and adjustments of $35.9 million related to prior years.

EQUALIZATION ($112.1 million increase)

The increase in Equalization revenue of $112.1 million — from $508.4 million for the fiscal year ended March 31, 1987 to $620.5 million for the fiscal year ended March 31, 1988 — is mainly attributable to an increase in basic current year entitlements of $129.8 million resulting from improved economic performance of provinces representing the greatest portion of the equalization base (i.e. Ontario, Quebec) and an increase of $47.3 million in prior years adjustments (a positive $42.2 million adjustment was applied in 1987–88 compared to a negative $5.1 million adjustment in 1986–87). These increases were partially offset by a decrease of $65.0

million related to non-recurring supplementary payments received in 1986-87 under a two year program as compensation for changes in the equalization formula.

The actual revenue received, $620.5 million, exceeded the Estimate by $151.5 million mainly due to an increase in basic current year entitlements of $109.3 million resulting from improved economic performance of provinces representing the greatest portion of the equalization base (i.e. Ontario, Quebec) and an increase of $42.2 million related to prior years adjustments.

RETAIL SALES TAX ($104.7 million increase)

The increase in Retail Sales Tax revenue of $104.7 million — from $469.2 million for the fiscal year ended March 31, 1987 to $573.9 million for the fiscal year ended March 31, 1988 — is mainly due to an increase in the tax rate from 6% to 7% effective May 4, 1987 and changes in the tax base to include such items as tobacco products, computer applications software, insulation materials, energy saving devices and take out food in excess of $6.00.

The actual revenue received, $573.9 million, is less than the Estimate by $23.0 million, mainly due to variations in estimating the impact of the rate change and base change as well as to economic factors in 1987-88.

LEVY FOR HEALTH AND EDUCATION ($60.9 million increase)

The increase in Levy for Health and Education revenue of $60.9 million — from $126.6 million for the fiscal year ended March 31, 1987 to $187.5 million for the fiscal year ended March 31, 1988 — is mainly due to an increase in the rate from 1.5% of assessable payroll to 2.25% effective April 1, 1987 and to growth in employment and/or wages.

The actual revenue received, $187.5 million, exceeded the Estimate by $2.7 million mainly due to unanticipated growth in employment and/or wages.

CORPORATION INCOME TAX ($47.7 million increase)

The increase in Corporation Income Tax revenue of $47.7 million — from $119.3 million for the fiscal year ended March 31, 1987 to $167.0 million for the fiscal year ended March 31, 1988 — is the net result of: an increase of $25.1 million in basic current year entitlements reflecting a larger 1987 national corporate taxable income total; an increase in prior years adjustments of $13.8 million (a positive $3.2 million adjustment in 1987-88 compared to a negative adjustment of $10.6 million in 1986-87); an increase of $5.7 million due to differences in the timing of payments between the two fiscal years; an increase of $2.5 million due to a decrease in Manufacturer's Income Tax Credits; an increase of $1.2 million in Public Utilities Income Tax Transfer payments; and a decrease of $0.5 million due to an increase in Provincial Municipal Tax Sharing payments.

The 1987-88 revenue is net after transferring Provincial Municipal Tax Sharing payments of $9.6 million.

The actual revenue received, $167.0 million, exceeded the Estimate by $24.4 million, mainly due to higher estimates of national corporate taxable income for 1987 and 1988 by the federal government, the $3.2 million prior year adjustment and the $1.2 million increase in the estimate of Public Utilities Income Tax Transfer.

GOVERNMENT OF CANADA — SHARED COST RECEIPTS ($24.1 million increase)

The increase in Government of Canada Shared Cost Receipts of $24.1 million — from $232.1 million for the fiscal year ended March 31, 1987 to $256.2 million for the fiscal year ended March 31, 1988 — is the net result of several increases and decreases reflected in various cost-shared agreements.

Recoveries related to the Canada Assistance Plan increased by $11.8 million in the Department of Employment Services and Economic Security, $9.9 million in the Department of Community Services and $2.5 million in the Department of Health, primarily as a result of an increased level of provincial expenditure in the social services programs. The recovery of expenditures incurred on behalf of Treaty Indians increased by $1.4 million in the Department of Employment Services and Economic Security (social allowances) and $1.2 million in the Department of Community Services (ward maintenance).

Partially offsetting these increases were: a $4.2 million decrease in the Department of Education as a result of reduced allocations under The National Training Act; and a $1.7 million net decrease in the Department of Community Services, primarily as a result of non-recurring retroactive recoveries in 1986-87 related to the Young Offenders Act which became effective October 1986.

CORPORATION CAPITAL TAX ($17.8 million increase)

The increase in Corporation Capital Tax revenue of $17.8 million — from $40.6 million for the fiscal year ended March 31, 1987 to $58.4 million for the fiscal year ended March 31, 1988 — is due to the application of a 0.2% surtax on large corporations with taxable paid-up capital over $10.0 million effective for the tax year ending after June 30, 1987, and an increase in the tax rate on Trust and Loan Corporations from 0.9% to 3.0% for taxation years ending after June 30, 1987.

ESTABLISHED PROGRAMS CASH TRANSFER ($15.9 million increase)

The increase in Established Programs Cash Transfer revenue of $15.9 million — from $418.2 million for the fiscal year ended March 31, 1987 to $434.1 million for the fiscal year ended March 31, 1988 — is attributable to an increase in basic current year entitlements of $8.6 million for Insured Health Services, $2.9 million for Extended Health Care Services and $3.0 million for Post-Secondary Education, as well as to lower negative prior years adjustments in 1987-88 which resulted in an increase in revenue of $1.4 million (a $12.8 million negative adjustment was applied in 1987-88 compared to a $14.2 million negative adjustment in 1986-87).

The actual revenue received, $434.1 million, is less than the Estimate by $12.9 million, mainly due to unanticipated prior years adjustments.

MOTIVE FUEL TAX ($14.6 million increase)

The increase in Motive Fuel Tax revenue of $14.6 million — from $57.0 million for the fiscal year ended March 31, 1987 to $71.6 million for the fiscal year ended March 31, 1988 — is mainly due to an increase in the tax rates on diesel fuel (rail and highway), heating oil, bunker oil and propane effective April 1, 1987. The cancellation of the 7 cents per kilogram tax on compressed natural gas used in internal combustion engines effective November 1, 1987 partially offset the increase attributed to changes in tax rates.

The actual revenue received, $71.6 million, is less than the Estimate by $2.2 million, mainly due to the cancellation of the 7 cents per kilogram tax on compressed natural gas used in internal combustion engines effective November 1, 1987.

ATTORNEY-GENERAL — LAND TRANSFER TAX ($10.1 million increase)

A new Land Transfer Tax implemented on May 15, 1987, resulted in revenue of $10.1 million for the fiscal year ended March 31, 1988. The land transfer tax system replaces the previous system of land transfer charges and applies progressive rates based on the value of the property being transferred.

The actual revenue received, $10.1 million, was $11.3 million less than the Estimate largely due to a smaller than anticipated volume and average price of taxable transactions, a larger than anticipated volume of exempt transactions and a greater than anticipated number of land transactions processed under the old land titles structure prior to the May 15, 1987 implementation date.

LIQUOR CONTROL COMMISSION ($9.6 million increase)

The increase in Liquor Control Commission revenue of $9.6 million — from $141.9 million for the fiscal year ended March 31, 1987 to $151.5 million for the fiscal year ended March 31, 1988 — which represents the increase in net profit to the Commission, is the result of price increases of $13.7 million and an increase in other revenue of $1.4 million largely as a result of the new occasional permit additional fees effective August 1, 1987 and increased revenue from supplementary licensee fees and border point levies. These increases were partially offset by a decrease in sales volume of $4.6 million and an increase in operating expenses of $0.9 million.

REVENUE ACT, 1964, PART I ($8.8 million increase)

The increase in Revenue Act, 1964, Part I revenue of $8.8 million — from $32.6 million for the fiscal year ended March 31, 1987 to $41.4 million for the fiscal year ended March 31, 1988 — is mainly due to an increase in the tax rate from 6% to 7% effective May 4, 1987.

RECIPROCAL TAXATION AGREEMENT ($4.4 million increase)

The increase in Reciprocal Taxation Agreement revenue of $4.4 million — from $13.4 million for the fiscal year ended March 31, 1987 to $17.8 million for the fiscal year ended March 31, 1988 — is the net result of an increase of $2.3 million in current year entitlements relating to the sales tax component of the agreement, a net increase in prior year adjustments of $2.8 million, and a decrease of $0.8 million in payments relating to vehicles and Equalization associated with the reciprocal taxation formula.

GASOLINE TAX ($3.8 million increase)

The increase in Gasoline Tax revenue of $3.8 million — from $115.9 million for the fiscal year ended March 31, 1987 to $119.7 million for the fiscal year ended March 31, 1988 — is primarily due to a $2.0 million increase related to the cancellation of the Competition Assistance Grant program on June 23, 1987, and an increasse in consumer sales of approximately 3% in clear gasoline and 8% in aviation fuel.

The actual revenue received, $119.7 million, exceeded the Estimate by $4.5 million, mainly due to the cancellation of the Competition Assistance Grant program and higher than estimated consumer sales.

EDUCATION — SUNDRY ($2.4 million increase)

The increase in Sundry revenue of $2.4 million — from $5.4 million for the fiscal year ended March 31, 1987 to $7.8 million for the fiscal year ended March 31, 1988 — is mainly due to additional indirect training contracts delivered by the community colleges under the Flexibility Funding Program.

The actual Sundry revenue received, $7.8 million, exceeded the Estimate by $3.3 million also as a result of the additional indirect training contracts delivered by the community colleges.

HIGHWAYS AND TRANSPORTATION — AUTOMOBILE AND MOTOR CARRIER LICENCES AND FEES ($2.3 million increase)

The increase in Automobile and Motor Carrier Licences and Fees of $2.3 million — from $31.5 million for the fiscal year ended March 31, 1987 to $33.8 million for the fiscal year ended March 31, 1988 — is primarily the result of an increase in registration fees of $3.00 per vehicle effective March 1, 1987.

The actual revenue received, $33.8 million, is less than the Estimate by $7.2 million primarily due to the deferral of the vehicle registration fee increases planned to take effect March 1, 1988.

TOBACCO TAX ($2.2 million increase)

The increase in Tobacco Tax revenue of $2.2 million — from $91.8 million for the fiscal year ended March 31, 1987 to $94.0 million for the fiscal year ended March 31, 1988 — is the net result of an increase in the tax rate from 4.1 cents per cigarette to 4.6 cents per cigarette effective April 13, 1987, and a decline in consumer sales of approximately 9% due to economic and social pressures.

MINING TAX ($19.8 million decrease)

The decrease in Mining Tax revenue of $19.8 million — from $48.1 million for the fiscal year ended March 31, 1987 to $28.3 million for the fiscal year ended March 31, 1988 — is the net result of a decrease in prior years audit recoveries of $36.5 million together with an increase of $16.7 million in the 1987 taxation year mining tax monthly instalments received over those received during the 1986 taxation year. The instalment tax increase reflects higher profits due to higher base metal prices.

The actual revenue received, $28.3 million, exceeded the Estimate by $21.3 million, mainly due to a $17.8 million increase related to higher than anticipated mining company profits resulting from increased base metal prices and unexpected prior year audit recoveries totalling $3.5 million.

ATTORNEY-GENERAL — LAND TITLES FEES ($8.4 million decrease)

The decrease in Land Titles Fees of $8.4 million — from $14.9 million for the fiscal year ended March 31, 1987 to $6.5 million for the fiscal year ended March 31, 1988 — is primarily the result of the implementation of the new Land Transfer Tax System which replaced the previous system of land transfer charges effective May 15, 1987. A flat transaction fee of $30.00 is now collected for each mortgage registration or transfer of title.

The actual revenue received, $6.5 million, exceeded the Estimate by $1.2 million primarily as a result of a greater than anticipated number of land transactions processed under the previous Land Titles fee structure prior to the implementation of the new Land Transfer Tax on May 15, 1987.

NOTE 1: The presentation of the actual expenditure for the 1986–87 fiscal year has been changed to reflect the organizational structure of Departments as established in the 1987–88 Estimates.

The 1986–87 actual expenditure has been restated to reflect a change in accounting policy implemented in the 1987–88 fiscal year whereby increases (decreases) in valuation allowances are charged to an appropriation expenditure. As well, 1986–87 actual expenditure has been restated to be consistent with the 1988 presentation with respect to recording the Losses of Crown Corporations in the current year's operating results. This has the effect of increasing 1986–87 actual expenditure by $57,269,151 and is accounted for as follows:

Increase in Valuation Allowance	$ 49,636,112
Unfunded Liability for Manitoba Development Corporation Losses	7,633,039
	$ 57,269,151

Prior to 1987–88 the above amounts were recorded in the Excess of Liabilities Over Financial Assets Account.

EXPLANATORY COMMENTS REGARDING EXPENDITURE INCREASES (DECREASES)

As shown on the
Statement of Expenditure
For The Year Ended March 31, 1988

The total expenditure of $4,338.3 million for the year ended March 31, 1988 has increased from the previous fiscal year's total of $4,002.8 million by $335.5 million.

The largest increase, $99.5 million in the Department of Health, is primarily attributable to a $92.1 million increase in payments to the Manitoba Health Services Commission.

Other significant increases were: $57.2 million in the Department of Finance, mainly the result of a net increase in Public Debt costs of $79.2 million, partially offset by a net decrease in Hydro Rates Stabilization expenditures of $17.4 million; and $52.4 million in the Department of Education, largely the result of a $27.1 million increase in financial support provided to school divisions and a $19.6 million increase in grant funding provided to the Universities Grants Commission.

Although salary and other general cost increases account for a substantial portion of the total increase, certain major items in departmental expenditures are commented on in the following paragraphs:

AGRICULTURE ($3.5 million increase)

The increase in departmental expenditures is mainly attributable to an increase of $9.0 million related to the Special Farm School Tax Assistance Program which was introduced in 1987-88 to assist farmers with their school taxes and a net increase of $1.6 million in expenditures related to the Manitoba Agricultural Credit Corporation.

Offsetting this increase is a $7.1 million decrease in expenditure associated with the Income Insurance Fund and is mainly due to the following: Beef Stabilization Plan expenditure decreased by $9.0 million in 1987-88 mainly as a result of an $8.0 million decrease in the March 31, 1987 valuation allowance for the Manitoba Beef Commission. The decrease in the valuation allowance resulted from the recovery of losses incurred in previous years. Offsetting this decrease was an increase in expenditure of $2.5 million with regards to the Manitoba Hog Stabilization Program.

ATTORNEY-GENERAL ($9.6 million increase)

The increase in departmental expenditures is mainly attributable to an increase of $3.0 million in payments to the R.C.M.P. for the provincial share of police services provided and a $2.9 million increase in costs associated with the Criminal Injuries Compensation Board, primarily as a result of a change in accounting policy in 1987-88 whereby future costs of compensation awards are recorded in the fiscal year that they are approved.

CIVIL SERVICE ($9.7 million increase)

The increase in departmental expenditures is mainly attributable to a $4.6 million increase in payments related to the Levy for Health and Post-Secondary Education as a result of the legislated rate increase from 1.5% to 2.25% of payroll costs and a $4.6 million increase in expenditures associated with Civil Service Benefit Plans which are required by legislation or agreement. Major year over year changes in employee benefit costs were: a $1.6 million increase in contributions to the Civil Service Superannuation Plan, a $1.1 million increase in the Government's share of premiums paid under the Unemployment Insurance Plan, and a $0.8 million increase in payments related to the Canada Pension Plan.

COMMUNITY SERVICES ($31.4 million increase)

The increase in departmental expenditures is mainly the result of: a $9.7 million increase in the Child and Family Support — Maintenance of Children program, largely as a result of cost and volume increases related to foster and special rate care; a $3.3 million increase in grant payments provided to External Agencies under Child and Family Support; a $5.0 million increase in Child Day Care subsidy and grant payments as a result of an increase in the number of subsidized spaces and the level of grant support provided; and a $5.9 million increase in financial assistance provided under Community Social Services Programs, primarily as a result of price and volume increases.

CO-OPERATIVE DEVELOPMENT ($3.2 million decrease)

The decrease in departmental expenditures occurred as a result of the termination of the Credit Union and Caisses Populaires Assistance Agreement on July 7, 1987.

EDUCATION ($52.4 million increase)

The increase in expenditures is mainly the result of: an increase of $23.1 million in the level of School Grants and Other Assistance provided to School Boards; an increase of $4.1 million in the level of General Support Grant funding as a result of a change in the funding formula; and an increase of $2.1 million in Government contributions to the Teachers' Retirement Allowances Fund. In addition, grant funding provided to the Universities Grants Commission increased by $19.6 million. Of this, $9.4 million is related to increased operating costs at the Universities, $7.5 million to the repayment of a University of Manitoba special debenture, $2.0 million to the Province's contribution towards the Brandon Music Building outstanding debt and $0.7 million to the new Manitoba Fund for University Development.

EMPLOYMENT SERVICES AND ECONOMIC SECURITY ($22.4 million increase)

The increase in departmental expenditures is mainly attributable to: a $13.9 million increase in Social Allowance Assistance provided to individuals, primarily due to an 8.6% increase in the level of support; a $3.5 million increase in Municipal Assistance payments, mainly due to a 7.8% increase in the level of support and a 2.3% caseload increase; and a $1.6 million increase in Social Allowances Health Services expenditures, mainly due to an 11.2% increase in the level of support and a 4.5% increase in caseload.

FINANCE ($57.2 million increase)

The increase in departmental spending is mainly attributable to a net increase of $79.2 million in Public Debt expenditures. The major factors contributing to this increase were an increase of $63.6 million in interest and amortization costs due to foreign currency fluctuations (including a change in the method of calculation for amortization of estimated losses on foreign currency fluctuations from a 3 year moving average of exchange rates to the noon day spot rates for foreign currencies on March 31, 1988) and a $56.9 million net increase in interest costs on long term financing. These increases were partially offset by increased earnings of $16.0 million from the Provincial Sinking Fund, increased interest received from advances to Crown Corporations of $16.3 million and a $15.0 million increase in net earnings related to the cash management program.

Hydro Rates Stabilization expenditures decreased by $17.4 million. The major factors contributing to the decrease were: a decrease of $24.1 million related to interest costs on U.S. dollar debt (which are Manitoba Hydro's responsibility effective April 1, 1987); a decrease of $3.2 million in interest costs related to the refinancing of an 80 million Swiss Franc issue in November 1986 and a decrease of $2.2 million in amortization of fluctuations on principal. These decreases were partially offset by an increase of $4.7 million in interest costs due to fluctuations in foreign currencies and a $7.8 million net increase in the cost of final year maturities (including a $36.9 million increase in costs of issues called prior to maturity).

Tax Credit Payments increased by $4.2 million. This increase is mainly attributable to a $1.2 million increase in Resident Homeowner Assistance, a $1.7 million increase in Property Tax Credits, and a $0.9 million increase in Pensioners School Tax Assistance that resulted from the extension of the program to the 55 to 64 age group in 1987-88.

Partially offsetting the above increases was a decrease of $10.0 million related to a non-recurring loan guarantee payment made on behalf of Flyer Industries pursuant to the sale of Flyer in 1986-87.

GOVERNMENT SERVICES ($5.8 million increase)

The increase in departmental expenditures is primarily attributable to: a $2.7 million increase in Property Management program costs, mainly due to a $1.5 million increase in the cost of leasing properties and a $1.0 million increase in costs related to the operation of facilities; a $1.6 million net increase in Capital program expenditures; and a $1.3 million increase in costs related to support services provided to Government Departments and Agencies through the Supply and Services program.

HEALTH ($99.5 million increase)

The major factor contributing to the increase in departmental expenditures is an increase of $92.1 million in payments to the Manitoba Health Services Commission. This increase is primarily attributable to: increased Hospital Program costs — approximately $33.5 million for general cost increases for salaries and supplies, $8.5 million for program expansion, new initiatives and upgrading, and $10.9 million for new and renovated facilities and equipment purchases; increased Personal Care Home Program costs — approximately $12.2 million for general cost increases for salaries and supplies, $5.8 million for new and renovated facilities, offset by an increase of $4.8 million in recoveries related to residential charges: volume and fee-for-service increases of $14.9 million in the Medical Program; and an increase of $8.3 million in the Pharmacare Program, primarily as a result of an increase in volume and the cost of drugs.

In addition, Continuing Care — Home Care Assistance program expenditures increased by $3.6 million, mainly as a result of an increase in the volume and the intensity of services provided and an increase in salary costs which is primarily attributable to the signing of the first Home Care Attendant Collective Agreement in January, 1988.

HIGHWAYS AND TRANSPORTATION ($4.6 million increase)

The increase in departmental expenditures is mainly attributable to a $4.4 million increase in Capital Expenditures of which $3.9 million is related to the Federal/Provincial Yellowhead Highway Improvement Program which was initiated in 1987-88.

HOUSING ($6.3 million decrease)

The decrease in departmental expenditure is attributable to the write down of advances related to Manitoba Housing and Renewal Corporation which occurred at March 31, 1987. This was primarily a result of the Corporation writing down the value of its land holdings during the 1986-87 fiscal year. There was no write-down of advances in 1987-88. The year over year decrease in expenditure was offset by the increase of $2.8 million in Transfer Payments to the Manitoba Housing and Renewal Corporation resulting from increased Rental Subsidies of $1.1 million and a $1.5 million increase in expenditures related to market value adjustments for land development associated with the completion and close out of land used for residential development. In addition grant and subsidy payments related to the Shelter Allowance for the Elderly Renters Program increased by $1.1 million as a result of the extension of the program to the 55 to 64 age group in 1987-88.

NATURAL RESOURCES ($9.2 million increase)

The increase in departmental expenditures is mainly attributable to a net increase of $7.2 million in fire suppression costs, primarily as a result of the severe outbreak of forest fires in the spring of 1987. In addition, the department provided the Communities Economic Development Fund (C.E.D.F.) with a $1.0 million grant to cover C.E.D.F.'s net operating costs for the year. Provision of this grant was the result of a change in funding policy. C.E.D.F.'s net operating costs were previously funded by the Manitoba Development Corporation.

NORTHERN AFFAIRS ($2.3 million increase)

The increase in departmental expenditures is mainly attributable to an increase of $1.7 million in costs associated with the Northern Flood Agreement, which provides economic compensation to five northern Indian bands affected by northern hydro projects, due to a higher number of claims finalized in 1987-88.

URBAN AFFAIRS ($3.0 million increase)

The increase in departmental expenditures is mainly attributable to an increase of $2.2 million in Financial Assistance provided to the City of Winnipeg. Of this, $1.9 million is related to a change in the General Support Grant funding formula.

MANITOBA JOBS FUND ($15.8 million decrease)

The decrease in expenditures results from a $12.3 million decrease in expenditures related to Infrastructure Development programs, primarily due to the completion of the Churchill Hydro Line and the Manitoba Community Assets programs in 1986-87 and a $5.7 million decrease in Human Resource Development program expenditure, mainly due to decreased activity by the Limestone Training and Employment Agency.

CROWN CORPORATION LOSSES AND EXPENDITURES ($19.8 million decrease)

The net decrease in expenditure is mainly attributable to the divestiture costs for Flyer Industries Ltd. which decreased from $29.7 million charged in 1986-87, to $5.9 million charged in 1987-88. Offsetting this decrease is an increase in 1987-88 expenditures of $4.9 million which recognizes the risk associated with the Province's investment in the Manitoba Potash Corporation.

EXTRAORDINARY EXPENDITURES

WORKERS' COMPENSATION BOARD ($16.4 million increase)

This expenditure represents the liability which the Province has assumed for the estimated loss of interest that resulted from the limitations imposed by the Government on assessment rate increases proposed by the Workers' Compensation Board during the years 1983 through 1987.

MANITOBA PUBLIC INSURANCE CORPORATION ($59.1 million increase)

This liability which the Province has recorded with respect to the Manitoba Public Insurance Corporation reflects the cumulative deficits of the Reinsurance Assumed activities and the Personal and Commercial lines of the General Insurance Division.

EXPLANATORY COMMENTS REGARDING EXPENDITURE OBJECT CODE INCREASES (DECREASES)

For the Year Ended March 31, 1988

NOTE 1: PERSONNEL SERVICES (\$41.1 million increase)

The increased costs of \$41.1 million in this category results mainly from the general salary increase that was negotiated with employees for the second year of a three year agreement. This increase was effective September 26, 1987.

Other contributing factors to the \$41.1 million increase were as follows:

a) An increase of \$4.6 million occurred in employee benefits required by legislation or agreement as follows: Civil Service Superannuation Plan \$1.6 million, Unemployment Insurance Plan \$1.1 million and Canada Pension Plan \$0.8 million.

b) An increase of \$2.7 million occurred in the Continuing Care - Home Care Assistance Program in the Department of Health. This increase was due to an increase in volume and intensity of services provided as well as an increase in salary costs which was attributable to the signing of the first Home Care Attendant Collective Agreement in January, 1988.

NOTE 2: GRANTS/TRANSFER PAYMENTS (\$169.5 million increase)

Significant increases or decreases in the amount of grants or transfer payments made under certain programs occurred in the following Departments:

a) **HEALTH (\$90.5 million increase)**

The major factor contributing to the increase in departmental expenditures is an increase of \$91.5 million in payments to the Manitoba Health Services Commission. This increase is primarily attributable to: increased Hospital Program costs-approximately \$33.5 million for general cost increases for salaries and supplies, \$8.5 million for program expansion, new initiatives and upgrading, and \$10.9 million for new and renovated facilities and equipment purchases; increased Personal Care Home Program costs — approximately \$12.2 million for general cost increases for salaries and supplies, \$5.8 million for new and renovated facilities, offset by an increase of \$4.8 million in recoveries related to residential charges; volume and fee-for-services increases of \$14.9 million in the Medical Program; and an increase of \$8.3 million in the Pharmacare Program, primarily as a result of the increased cost of salaries and supplies.

b) **EDUCATION(\$57.9 million increase)**

The increase in expenditure is mainly the result of: an increase of \$23.1 million in the level of School Grants and Other Assistance provided to School Boards; an increase of \$4.1 million in the level of General Support Grant funding due to a legislated increase in the Levy for Health and Post-Secondary Education from 1.5% to 2.25% of payroll costs effective April 1, 1987; and an increase of \$2.1 million in Government contributions to the Teachers' Retirement Allowances Fund. In addition, grant funding provided to the Universities Grants Commission increased by \$19.3 million. Of this, \$9.1 million is related to increased operating costs at the Universities, \$7.5 million to the repayment of a University of Manitoba special debenture, \$2.0 million to the Province's contribution towards the Brandon Music Building outstanding debt and \$0.7 million to the new Manitoba Fund for University Development.

c) **EXTRAORDINARY EXPENDITURES (\$75.5 million increase)**

These increases were a direct result of changes in accounting policy in 1987-88 and occurred as follows:

WORKERS' COMPENSATION BOARD
(\$16.4 million increase)

This expenditure represents the liability the Province has assumed for the estimated loss of interest that resulted from the limitations imposed by the Government on assessment rate increases proposed by the Workers' Compensation Board during the years 1983 through 1987.

MANITOBA PUBLIC INSURANCE
CORPORATION (\$59.1 million increase)

In accordance with changes in accounting policy in 1987-88, a provision has been made for the Province's estimated liability associated with the cumulative deficits of the Reinsurance Assumed activities and the Personal and Commercial lines of the General Insurance Division of the Manitoba Public Insurance Corporation.

d) **COMMUNITY SERVICES (\$11.6 million increase)**

The major increase in this category occurred in Child and Family Services as a result of a \$2.7 million increase in grant payments provided to External Agencies; an increase of \$5.2 million for Maintenance of Children under Child and Family Support and a \$2.5 million increase in Child Day Care grant payments as a result of an increase in the level of grant support provided.

e) **URBAN AFFAIRS (\$7.3 million increase)**

The increase in expenditures in this category is mainly attributable to an increase of \$6.4 million in Financial Assistance provided to the City of Winnipeg.

f) **FINANCE ($19.7 million decrease)**

The overall decrease in this category was due to a $13.8 million transfer (Local Government General Support Grants) to other Departments and the non-recurring loan guarantee payment of $10.0 million made on behalf of Flyer Industries Ltd. pursuant to the sale of Flyer in 1986-87. Partially off-setting these decreases was an increase of $4.2 million in tax credit payments which was mainly the result of a $1.2 million increase in Resident Homeowner Assistance, a $1.7 million increase in Property Tax Credits, and a $0.9 million increase in Pensioners School Tax Assistance which resulted from the extension of the program to the 55 to 64 age group in 1987-88.

g) **CROWN CORPORATION LOSSES AND EXPENDITURES ($19.8 million decrease)**

The net decrease in expenditure is mainly attributable to the divestiture costs for Flyer Industries Ltd. which decreased from $29.7 million charged in 1986-87, to $5.9 million charged in 1987-88. Offsetting this decrease is an increase in 1987-88 expenditures of $4.9 million which recognizes the risk associated with the Province's investment in the Manitoba Potash Corporation.

h) **HOUSING ($7.7 million decrease)**

The decrease in departmental expenditure is attributable to the write-down of advances related to Manitoba Housing and Renewal Corporation which occurred at March 31, 1987. This was primarily a result of the Corporation writing down the value of its land holdings during the 1986-87 fiscal year. There was no write-down of advances in 1987-88. The year over year decrease in expenditure was offset by the increase of $1.7 million in Transfer Payments to the Manitoba Housing and Renewal Corporation. In addition grant and subsidy payments related to the Shelter Allowance for the Elderly Renters Program increased by $1.1 million as a result of the extension of the program to the 55 to 64 age group in 1987-88.

i) **CO-OPERATIVE DEVELOPMENT ($4.8 million decrease)**

The decrease in departmental expenditures occurred as a result of the termination of the Credit Union and Caisses Populaire Assistance agreement on July 7, 1987.

NOTE 3: TRANSPORTATION ($2.8 million increase)

The increase in expenditure in this category occurred mainly in the Department of Natural Resources due to an increase of $2.0 million in fire suppression costs primarily as a result of the severe outbreak of forest fires in the spring of 1987.

NOTE 4: SUPPLIES AND SERVICES ($4.8 million increase)

The increase in this category is mainly attributable to an increase of $3.5 million in the Department of Attorney-General for payments to the R.C.M.P. for the provincial share of police services.

NOTE 5: PUBLIC DEBT ($61.6 million increase)

The increase in departmental spending is mainly attributable to a net increase of $78.9 million in Public Debt expenditures. The major factors contributing to this increase were an increase of $63.6 million in interest and amortization costs due to foreign currency fluctuations (including a change in the method of calculation for amortization of estimated losses on foreign currency fluctuations from a 3 year moving average of exchange rates to the noon day spot rate for foreign currencies on March 31, 1988) and a $56.9 million net increase in interest costs on long term financing. These increases were partially offset by increased earnings of $16.0 million from the Provincial Sinking Fund, increased interest received from advances to Crown Corporations of $16.3 million and a $15.0 million increase in net earnings related to the cash management program.

Hydro Rates Stabilization expenditures decreased by $17.4 million. The major factors contributing to the decrease were: a decrease of $24.1 million related to interest costs on U.S. dollar debt (which are Manitoba Hydro's responsibility effective April 1, 1987); a decrease of $3.2 million in interest costs related to the refinancing of an 80 million Swiss Franc issue in November 1986 and a decrease of $2.2 million in amortization of fluctuations on principal. These decreases were partially offset by an increase of $4.7 million in interest costs due to fluctuations in foreign currencies and a $7.8 million net increase in the cost of final year maturities (including a $36.9 million increase in costs of issues called prior to maturity).

NOTE 6: CAPITAL ($4.0 million increase)

The increase in this category was mainly the result of a $4.4 million increase in Capital Expenditures in the Department of Highways and Transportation of which $3.9 million is related to the Federal/Provincial Yellowhead Highways Improvement Program which was initiated in 1987-88.

NOTE 7: OTHER OPERATING ($15.8 million increase)

Because departments recover all costs for such programs as Jobs Fund and Northern Development Agreement through this category any increase or decrease in recoveries would directly affect the overall spending within this category. Consequently, the above increase is mainly attributable to the decrease of $33.3 million in recoveries and in particular the following:

a) a decrease of $7.6 million in the Department of Employment Services and Economic Development (Careerstart $2.0 million and Community Assets $4.0 million) mainly due to a decrease in spending through the Manitoba Jobs Fund.

b) a decrease of $9.3 million mainly due to decreased activity by the Limestone Training and Employment Agency ($3.7 million) as well as the completion of the Churchill Hydro Line in 1986–87 ($5.8 million) in the Department of Energy and Mines through the Manitoba Jobs Fund.

c) a decrease of $3.3 million in the Department of Government Services capital expenditure due to the completion of the North Portage Development.

d) a decrease of $1.4 million in the Department of Co-operative Development due to the financial assistance that was provided Canadian Co-operative Implements in the 1986–87 fiscal year.

The above overall decrease in recoveries is partially offset by a $5.8 million increase in Manitoba Jobs Fund expenditure which was the result of a change in accounting policy in 1987–88 regarding the valuation of outstanding loans.

NOTE 8: SOCIAL ASSISTANCE RELATED
($33.7 million increase)

The increase in this category was mainly due to the following:

a) **EMPLOYMENT SERVICES AND ECONOMIC SECURITY**
($20.9 million increase)

The increase in departmental expenditures in this category is mainly attributable to: a $13.9 million increase in Social Allowance assistance provided to individuals, primarily due to an 8.6% increase in the cost per case; a $3.5 million increase in Municipal Assistance payments, mainly due to a 7.8% increase in the cost per case; and a $1.6 million increase in Health Services expenditures, mainly due to an 11.2% increase in the cost per case.

b) **COMMUNITY SERVICES**
($14.4 million increase)

The increase in departmental expenditures in this category is mainly attributable to: a $8.7 million increase in the Child and Family Support — Maintenance of Children Program, largely as a result of cost and volume increases related to foster and special rate care and a $5.9 million increase in financial assistance provided under Community Social Services — Programs, primarily as a result of price and volume increases.

EXPENDITURE OBJECT CODE CATEGORIES

PERSONNEL SERVICES

All salaries and wages paid to Ministers, contract employees and regular civil servants are included in this category. Also included are indemnities, living and constituency allowances paid to MLA's, overtime, remoteness allowances, shift premiums and other negotiated payments for all employees. The employer portion of mandatory contributions to UIC, CPP, Workers' Compensation, etc. are considered as personnel costs and are reported under this category.

GRANTS/TRANSFER PAYMENTS

Payments to various individuals and organizations in support of various projects and programs including bursaries, cultural activities, charitable organizations, etc. Grants, other than for capital purposes, and transfer payments to other governments and government agencies are reported in this category.

NOTE 1: The future commitment amount for Government Services includes two years' rental under a lease agreement with Manitoba Properties Inc. The lease, which has a term of ninety-nine years, provides for annual rentals of $58,962,043 for an initial five year term with provision for renegotiation of rental payments every five years thereafter.

NOTE 2: The Appropriation Act, 1987 authorizes the Government to commit expenditures up to an amount not exceeding $350,000,000 for the purpose of ensuring completion of projects or fulfilling contracts initiated prior to March 31, 1988. Any expenditures so committed must be included in the estimates of the fiscal year in which the expenditures are expected to be made.

Accordingly, the Departmental commitments shown relate to long-term ongoing contracts covering the acquisition and/or rental of Capital Assets.

Payments authorized by the "Legislative Assembly Act" relate to the second and third sessions of the Thirty-Third Legislature. Amounts shown for reimbursement of expenses are those amounts paid directly to the member and do not include amounts paid directly to suppliers or paid through somebody else on the member's behalf. Printing privileges, as established under Section 66(3) of the "Legislative Assembly Act", may be paid directly to printing companies, on behalf of a sitting member, or may be paid as reimbursement to the member.

The Special Supplies and Operating Allowance may not be paid directly to the member but to a person designated by the leader of the party as allowed under Section 67(1) and (2) of the "Legislative Assembly Act".

* Mr. J. F. Johnston was the person designated to receive the Special Supplies and Operating Allowance for the Progressive Conservative Party.

** Mr. S. Ashton was the person designated to receive the Special Supplies and Operating Allowance for the New Democratic Party.

(1)–(4) Remuneration received from a Crown Agency as reported to the Minister of Finance pursuant to Section 65(2) of the "Legislative Assembly Act"

(1) Manitoba Hydro-Electric Board
(2) Manitoba Telephone System Board
(3) Manitoba Water Commission

GOVERNMENT OF THE PROVINCE OF MANITOBA

TRUST FUND ACCOUNTING POLICIES

The Trust Fund is divided into two primary divisions, Administered Trust and Custodial Trusts. Those trusts where the Government has the responsibility for the administration and for investment of the trust are considered Administered Trusts. Those trusts where the Government responsibility is custodial in nature and there is little or no administration responsibility are considered Custodial Trusts. Generally, the responsiblity for investment of Custodial Trust is that of the depositor. A statement of Assets and Liabilities for the Trust Fund is included in the Public Accounts showing the assets and liabilities for Administered Trusts. Details of Custodial accounts are set out in a note to the statement of Assets and Liabilities.

Administered Trusts are divided into five categories:

1. Sinking Funds - This category includes sinking fund contributions deposited with the Minister of Finance by Crown Corporations, Agencies, Boards and Commissions in respect of their direct debt.
2. Funds on Deposit For Investment - Funds surplus to the immediate cash requirement of Crown Corporations, Agencies, Boards and Commissions are deposited for investment with the Minister of Finance. Although certain of these deposits are covered by specific investments in the Trust Fund, the majority of these funds are invested with the Minister of Finance and interest is paid at market rate in accordance with the term of the investment.
3. Banking Facility Accounts — These accounts are operated for those Crown Corporations, Agencies, Boards and Commissions who bank with the Minister of Finance.
4. Operating Trusts — Certain trusts are established where legislation or agreements require receipts and related expenditure to be kept separate from Government revenue and expenditure. These "designated trusts" may, in some cases, be used for programs similar to those operated from appropriated funds but are kept separate because a trust requirement has been established. A separate Statement of Receipts, Payments and Transfers is prepared for each of these operating trusts and is published in the Trust Fund section of the Public Accounts.
5. Miscellaneous Trusts — This category contains trust accounts resulting from the sundry deposit of cash and/or securities with the Government.

Department of Municipal Affairs
Minister's Trust Account
REPORT OF THE PROVINCIAL AUDITOR'S OFFICE

We have examined the financial statements, being Exhibits A and B, of the Department of Municipal Affairs, Minister's Trust Account for the fiscal year ended March 31, 1988. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Minister's Trust Account as at March 31, 1988 and its receipts and disbursements for the year then ended in accordance with the accounting policy stated in note 2 to the financial statements applied on a basis consistent with that of the preceding year.

F. H. Jackson, CA,
Provincial Auditor.

July 13, 1988,
Winnipeg, Manitoba.

THE MANITOBA TEXT BOOK BUREAU
REPORT OF THE PROVINCIAL AUDITOR'S OFFICE

We have examined the financial statements, being Exhibits A and B, of The Manitoba Text Book Bureau for the fiscal year ended March 31, 1988. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of The Manitoba Text Book Bureau as at March 31, 1988 and the results of its operations for the year then ended in accordance with the accounting policies stated in note 1 to the financial statements applied on a basis consistent with that of the preceding year.

J. W. Singleton, CA,
Assistant Provincial Auditor.

THE MANITOBA TEXT BOOK BUREAU

Notes to the Financial Statements for the year ended March 31, 1988

1. **Accounting Policies**
   - a) The Bureau's financial statements are prepared on an accrual basis, except for capital acquisitions which are reflected as expenses in the year of acquisition.
   - b) Inventory is valued at the average cost of acquisition with a provision for obsolescence being made for books in declining demand.
   - c) Interest, property costs and employee benefits including pension costs are paid out of other appropriations of the Government of the Province of Manitoba and are not reflected in these financial statements.

2. **Grant Payments**

   For accountability purposes, the Bureau processes Department of Education grant payments to certain school divisions covering instructional materials amounting to $1,134,977 (1987 – $1,124,548). These transactions are not included in the financial statements. The Bureau does not charge for this service.

3. **Outstanding Commitments**

   Commitments on orders placed prior to March 31, 1988 for merchandise to be delivered subsequent to that date, were estimated at $2,783,500 ($2,415,400 as at March 31, 1987).

THE NORTHERN AFFAIRS FUND
REPORT OF THE PROVINCIAL AUDITOR'S OFFICE

We have examined the financial statements, being Exhibits A to E, of The Northern Affairs Fund for the fiscal year ended March 31, 1988. THE NORTHERN AFFAIRS FUND

Notes to Financial Statements
for the year ended March 31, 1988

1. The Fund carries out the following programs:

   i) It operates the Specific Purpose Funds Account to provide financial services to Community Councils in Northern Areas of Manitoba governed by the Northern Affairs Act;

   ii) It levies property and business taxes based on real property assessments and remits the tax requirements to School Divisions and The Public Schools Finance Board. Taxes collected for local purposes in the communities are remitted to the Community Councils when collected;

   and the Fund accounts for each of these programs separately.

2. The significant accounting policies of the Fund are as follows:

   a) Specific Purpose Funds Account

   The Specific Purpose Funds Account operates on a cash basis of accounting modified as follows:

   Revenue includes amounts received after the fiscal year end, if paid from Government of the Province of Manitoba appropriations for the fiscal year ended.

   Expenditure includes payments after the fiscal year end, if requisitioned prior to the fiscal year end and funded with revenue for the fiscal year ended.

   b) Taxation Account

   The Taxation Account operates on the accrual basis of accounting and, in accordance with procedures followed by municipal entities in the Province, recognizes taxation revenue and expenditure on the calendar year basis.

3. Administration costs of operating the Fund are paid out of appropriations of the Department of Northern Affairs and are not reflected in the Fund's financial statements.

4. Cash of $100,000 is retained in the Taxation Account to cover current needs. Cash in excess of $100,000 is transferred to the Government of the Province of Manitoba as a contribution to costs incurred by the Province to provide services in remote areas which do not have a local government to provide these services.

5. Grants in lieu of taxes and grants in lieu of taxes added were derived from the following sources:

	1988	1987
Government of the Province of Manitoba	$126,246	$115,755
Government of the Province of Manitoba Agencies	288,687	278,015

INTRODUCTION TO THE PUBLIC ACCOUNTS OF MANITOBA

The Public Accounts of the Province of Manitoba are prepared by statutory requirement, in accordance with the Financial Administration Act, which is Chapter F55 of the Continuing Consolidation of the Statutes of Manitoba. The Public Accounts for the fiscal year ended March 31, 1988 consist of three volumes:

Volume 1 contains the financial statements of the consolidated fund of the Province and corresponding schedules of supporting information.

Volume 2 is a supplementary volume which contains further details of the expenditures by standard expenditure object codes. It also provides details of the salaries and wages paid to employees as well as payments to corporations, firms, individuals, other Governments and Government Agencies.

Volume 3 contains the Summary Financial Statements of the Province. This is the first year that these statements are presented in this form. The long range intent of these statements is that they will reflect the consolidation of the operations of all organizations integral to the overall operations of Government in performing its executive function. At this time however, only the operations of Manitoba Properties Inc., Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. are consolidated with those of the Operating Fund. The Department of Finance is working to reflect the financial operations of the other organizations in future Summary Financial Statements.

CONTENTS OF VOLUME 2 — SUPPLEMENTARY INFORMATION

a) **Salaries and Wages In Excess of $25,000**

(i) This statement lists employees who received salaries or wages in excess of $25,000 during the fiscal year. Amounts reported will include remoteness allowance, shift and overtime premiums, separation pay and any other entitlement authorized in the collective agreement or regulations, where these items are applicable to the employee listed.
(ii) Employees are listed under the Department/Appropriation that is indicated as the source of funds for the employee's position as at March 31st even though the employee may have been located under other Department(s) and/or location(s) during the fiscal year.

b) **Statement of Cash Payments To Corporations, Firms, Individuals, Other Governments and Government Agencies**

(i) This statement lists, in alphabetical order within Department, each payee whose total payments by that individual Department exceeded $5000 during the fiscal year. Payments are presented on a gross basis to show all amounts disbursed for purchase of goods and services, investment and loan transactions, grant payments and refunds as well as payments from amounts held in trust on behalf of others.
(ii) Payments made to suppliers in the United States are presented in U.S. dollars.
(iii) Payments in other foreign currencies are shown in the Canadian Dollar Equivalent at the time of payment.
(iv) The location of the payee is shown except where payment was made to an address in Winnipeg or where the location is implicit in the name of the payee.

c) **Detailed Statement of Cash Payments From Departmental Appropriations**

(i) This statement reports actual expenditures from each departmental appropriation on the basis of the standard expenditure object code classification.
(ii) Object code expenditures are presented on a gross basis to show all amounts disbursed. Recoveries into appropriations and transfers to capital are shown separately to disclose their net effect on the total expenditure of the Department.
(iii) Expenditures are shown at the main appropriation level. More detailed information is available from the Department of Finance.

volume 3 — summary financial statements

Manitoba
Finance

for the year ended March 31, 1988

INTRODUCTION TO THE PUBLIC ACCOUNTS OF MANITOBA

The Public Accounts of the Province of Manitoba are prepared by statutory requirement, in accordance with the Financial Administration Act, which is Chapter F55 of the Continuing Consolidation of the Statutes of Manitoba. The Public Accounts for the fiscal year ended March 31, 1988 consist of three volumes:

VOLUME 1 contains the Financial Statements of the Consolidated Fund of the Province and schedules of supporting information.

VOLUME 2 is a supplementary volume which contains further details of the expenditures by standard expenditure object codes. It also provides details of the salaries and wages paid to employees as well as payments to corporations, firms, individuals, other Governments and Government Agencies.

VOLUME 3 contains the Summary Financial Statements of the Province. This is the first year that these statements are presented in this form. The long range intent of these statements is that they will reflect the consolidation of the operations of all organizations integral to the overall operations of Government in performing its executive function. At this time however, only the operations of Manitoba Properties Inc., Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. are consolidated with those of the Operating Fund. The Department of Finance is working to reflect the financial operations of the other organizations in future Summary Financial Statements.

INTRODUCTION TO THE SUMMARY FINANCIAL STATEMENTS

The Summary Financial Statements of the Government of the Province of Manitoba have previously presented only the financial position and operating results of the Consolidated Fund. The activities of the Consolidated Fund are divided into the "Operating Fund", which records the operational activities of the Government, and the "Trust Fund", which records the trust administration function.

Governments carry out their programs using a variety of organizational forms, such as funds, agencies and corporate enterprises. Inclusion of the financial operations of these organizations in the Summary Financial Statements is necessary for an overall understanding of the financial affairs of the Government. In recognition of this, and to have comparability and consistency between governments, the Public Sector Accounting and Auditing Committee of the Canadian Institute of Chartered Accountants has recently developed Public Sector Accounting Statement 4, which deals with "Defining the Government Reporting Entity". Statement 4 recommends consolidation as the most appropriate method of accounting for organizations integral to the overall operations of Government in directly performing its executive function.

While the full implementation of this accounting statement will require further study and analysis by the Manitoba Government, these Summary Financial Statements reflect some initial steps in the implementation of the recommendations of Statement 4. Manitoba Properties Inc. and its related holding companies, Manitoba Properties Management Inc. and Manitoba Properties Leasing Inc., are part of an arrangement whereby the Province sold certain of its land and buildings to Manitoba Properties Inc., and then entered into lease agreements for these properties. Their primary function is that of a provider of services to the Government.

Accordingly, the financial operations of Manitoba Properties Inc. have been consolidated with the financial operations of the "Operating Fund" in these Summary Financial Statements. The financial operations of other provincial crown corporations, agencies, boards and commissions, while not consolidated, are reflected in the Summary Financial Statements as described under "The Reporting Entity" in the accounting policies of the Government. The Department of Finance is working to reflect the financial operations of these other organizations in future Summary Financial Statements in accordance with the recommendations of Statement 4.

REPORT OF THE PROVINCIAL AUDITOR ON THE SUMMARY FINANCIAL STATEMENTS OF THE GOVERNMENT OF THE PROVINCE OF MANITOBA

I report that the summary financial statements of the Government of the Province of Manitoba, being the statement of financial position as at March 31, 1988 and the statements of excess of liabilities over financial assets, revenue and expenditure, changes in financial position and schedules 1 to 6 for the year then ended have been examined under my direction. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Government of the Province of Manitoba as at March 31, 1988 and the results of its operations and the changes in its financial position for the year then ended. The financial statements are presented in accordance with the Government's stated accounting policies applied, except for the changes in the accounting policies explained in Accounting Policies - Statement and Application, Application of Accounting Policies, section IV to the financial statements, on a basis consistent with that of the preceding year.

Fred H. Jackson

F.H. Jackson, CA,
Provincial Auditor.

GOVERNMENT OF THE PROVINCE OF MANITOBA

STATEMENT OF RESPONSIBILITY

Responsibility for the integrity and objectivity of the Summary Financial Statements rests with the Government. They are prepared under the direction of the Minister of Finance in accordance with the stated accounting policies of the Government and include a statement of financial position, a statement of excess of liabilities over financial assets, a statement of revenue and expenditure, a statement of changes in financial position, schedules, notes and accounting policies integral to the statements. Together, they present fairly, in all material respects the financial condition of the Consolidated Fund at the fiscal period-end and results of operations for the year then ended after giving effect to the consolidation of Manitoba Properties Inc., Manitoba Properties Management Inc. and Manitoba Properties Leasing Inc.

On behalf of the Government:

Clayton Manness

Honourable Clayton Manness
Minister of Finance

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1988

1. EFFECT OF CONSOLIDATION OF MANITOBA PROPERTIES INC.

During 1984-85 and 1985-86 the Province sold land and buildings with an aggregate value of $917 million to Manitoba Properties Inc. (MPI). The sale was arranged through two intermediary crown corporations, Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc., and resulted in the Province receiving common shares of these two corporations along with promissory notes of MPI and cash as the purchase consideration. The operations of MPI have been consolidated in the Summary Financial Statements of the Province for the fiscal years ended March 31, 1988 and March 31, 1987. This has resulted in the following effect on the Statement of Financial Position and on the Statement of Revenue and Expenditure:

a) Securities received from the sale of land and buildings to MPI in the amount of $182 million were eliminated for the year ended March 31, 1988 (1987-$182 million).
b) Promissory notes of $26 million for the fiscal year ended March 31, 1988 (1987-$17 million) were eliminated. These funds were advanced to cover administrative costs of $8 million (1987-$6 million) and capital expenditures of $18 million (1987-$11 million).
c) Liabilities were increased by $399 million for the year ended March 31, 1988 (1987-$399 million) to reflect the outstanding preferred shares of MPI (with an equivalent decrease in guaranteed and indirect liabilities).
d) The valuation allowance of $8 million (1987-$6 million) for MPI was eliminated.
e) The aggregate of these amounts, totalling $599 million for the fiscal year ended March 31, 1988 (1987-$592 million), has increased the Excess of Liabilities Over Financial Assets account by $592 million (1987-$581 million) and 1988 expenditure by $7 million (1987-$11 million).
f) The net effect on the expenditure accounts of the Government for the fiscal year ended March 31, 1988 has been an increase in public debt costs of $61 million (1987-$60 million), an increase in expenditure related to capital of $7 million (1987-$11 million), a decrease in expenditure for supplies and services of $59 million (1987-$59 million) and a decrease in Grants/Transfer Payments of $2 million (1987-$1 million).

2. PROVISION FOR FOREIGN CURRENCY FLUCTUATION ON MANITOBA HYDRO DEBT

The Province issues provincial securities to raise funds for Manitoba Hydro. This debt, as well as the effect of currency fluctuations for foreign issues, is considered borrowings of the Province and is reflected as such on the Statement of Financial Position. In addition, the Province guarantees debt which Manitoba Hydro issues in its own name. The fluctuation on the guaranteed debt issued in foreign currencies was $239 million at March 31, 1987. Pursuant to the Energy Rate Stabilization Act, the Province was responsible for the fluctuation on all Manitoba Hydro foreign currency debt. Because the guaranteed debt itself is not a liability of the Province, the fluctuation on foreign currency debt for which the Province was responsible has been recorded as a separate liability, apart from borrowings.

The Energy Rate Stabilization Act was amended effective April 1, 1987 limiting the Province's liability for fluctuation on Manitoba Hydro debt. Manitoba Hydro became responsible for the fluctuation on its U.S. dollar denominated debt, whether issued by the Province or by Manitoba Hydro, except to the extent already provided by way of amortization by the Province to March 31, 1987. At maturity of each U.S. dollar debt issue, the Province is responsible for the lesser of the currency fluctuation on the maturing debt or the amount remaining in the provision account for that issue. The amount amortized by the Province at March 31, 1987 was $159 million. At March 31, 1988 the amortized amount remaining in the provision account related to outstanding issues is $153 million.

The Province retains responsibility for the fluctuation, in currencies other than U.S. dollars, for both its direct and guaranteed debt for Manitoba Hydro outstanding at March 31, 1987. As a result of the amendment to the Energy Rate Stabilization Act, Manitoba Hydro is now responsible for the fluctuation on debt issued after that date. As at March 31, 1988, Manitoba Hydro debt guaranteed by the Province contained no foreign currency other than U.S. dollars.

3. BORROWINGS

All borrowings are expressed in Canadian dollars. Foreign borrowings are converted at the exchange rate in effect at March 31.

The weighted average rate of interest based on actual interest payments made during 1987-88 was 10.46% (1987-11.02%).

The classification of borrowings by purpose is as follows:

	Exchange Rate in Effect at			
	Issue Date		March 31	
	1988	1987	1988	1987
	($ millions)			
General Government Programs	$5,517	$4,828	$ 6,306	$5,514

	$9,315	$8,022	$10,320	$9,021
Less: Sinking Funds	1,295	1,055	1,295	1,055
Unamortized Debt Issue Costs	44	39	44	39
	$7,976	$6,928	$ 8,981	$7,927

Included in "Other" is debt totalling $166 million which has been used to fund loans, advances and investments for which valuation allowances have been established at March 31, 1988. If write-off of these assets occurs, this debt would be considered to be General Government Programs debt.

4. UNAMORTIZED FOREIGN CURRENCY FLUCTUATION

At March 31, 1987, the Statement of Financial Position stated assets and liabilities at the exchange rate in effect at date of issue and reflected a Provision for Unrealized Foreign Currency Losses. At March 31, 1988, assets and liabilities in foreign currency have been restated at the March 31 exchange rate, and concurrently Unamortized Foreign Currency Fluctuation is now being shown. Details of the transactions are:

	($ millions)	
	1988	1987

5. TRUST FUND

Included in the Statement of Financial Position is an amount owing to the Trust Fund which primarily represents surplus cash of Crown Corporations, Agencies, Boards and Commissions on deposit with the Minister of Finance for investment but not specifically invested. The assets and liabilities of the Trust Fund itself as at March 31st are as follows:

	($ millions)	
ASSETS	1988	1987
Amounts due from Operating Fund	$ 842	$ 570
Cash and Investments	586	586
Total Trust Assets	$1,428	$1,156
LIABILITIES		
Trust Fund Balances	$1,428	$1,156
Total Trust Liabilities	$1,428	$1,156

In addition, the Trust Fund includes cash and securities for which the Government's responsibility is custodial in nature. The amount reported at March 31, 1988 was $582 million (1987-$540 million).

Debt issued by Crown Corporations, Agencies, Boards and Commissions which is guaranteed by the Government as at March 31st:

	($ millions) 1988	($ millions) 1987
Self-supporting Debt	$1,542	$ 1,683
Debt serviced in whole or in part from the Consolidated Fund	10	13
	$1,552	$ 1,696
LESS: Applicable Sinking and other related Trust Funds	263	273
	$1,289	$ 1,423

A portion of the foreign currency fluctuation on the guaranteed debt included above has been provided for in the Provision for Foreign Currency Fluctuation on Manitoba Hydro Debt.

7. FINANCIAL COMMITMENTS

The Government has entered into long-term financial arrangements wherein indebtedness has been issued that is not guaranteed by the Government, but the funds required for the payment of principal and interest will be either fully or partially provided from appropriations of the Consolidated Fund. The Government has also made future commitments against appropriations under long-term contracts that cover the acquisition and/or rental of physical assets. These financial commitments as at March 31st are as follows:

	($ millions) 1988	($ millions) 1987
LONG-TERM FINANCIAL ARRANGEMENTS:		
Hospitals & Personal Care Homes	$ 405	$ 362
Public Schools	252	219
Manitoba Housing and Renewal Corporation	229	231
Manitoba Water Services Board	2	2
Brandon University	3	3
	$ 891	$ 817
FUTURE COMMITMENTS:		
Acquisition of Physical Assets	79	113
Rental of Physical Assets	51	47
	$1,021	$ 977

In addition to the approved outstanding debt for Hospitals and Personal Care Homes, lines of credit up to $72.4 million (1987-$100.0 million) have been approved to finance capital projects currently in process. On completion of these projects, the borrowings will be converted to long-term debt.

The Government has provided guarantees for the following and accordingly has a contingent liability in the event of default:

	MAXIMUM GUARANTEE	AMOUNT OUTSTANDING MARCH 31, 1988	AMOUNT OUTSTANDING MARCH 31, 1987
		($ millions)	
Mortgages	$ 1	$ 1	$ 1
Performance Bonds	-	-	53
Promissory Notes	175	-	25
Bank Loans and Lines of Credit	38	16	2
	$214	$ 17	$ 81

This does not include guarantees that may be provided by Crown Corporations, Agencies, Boards and Commissions under their own separate authority.

The Province has provided a guarantee to the purchaser of Flyer Industries Limited covering all of the obligations of Manitoba Development Corporation arising out of the sale of Flyer Industries Limited including $53,000,000 of performance bonds on contracts for the supply of buses to various transit organizations.

The Government has been named in approximately 100 claims still outstanding at March 31, 1988. No provision has been made for these claims in the accounts at March 31, 1988 as the likelihood for success of these claims has not been established.

9. PENSION LIABILITY

The Province is required by legislation to pay 50% of the pension disbursements made to retired Provincial employees (with the exception of the share payable by Government Agencies for their employees) and to retired teachers. Such payments are charged to departmental appropriations as incurred and no provision is made to fund current or past service obligations of the Province to the Civil Service Superannuation Fund or to the Teachers' Retirement Allowances Fund. The reserves which are presently held in these Funds represent only the employees' obligation towards the total pension liability.

An actuarial valuation and report of the Government's liability to the Civil Service Superannuation Fund was determined as at December 31, 1986. The report also provided a formula to update the liability on an annual basis. In accordance with the formula adopted by the actuary, the Government's actuarial liability to the Civil Service Superannuation Fund has been calculated at approximately $346 million as at December 31, 1987 (1986-approximately $305 million). The liability of the Province to the Teachers' Retirement Allowances Fund has not been established by an actuarial valuation. The reserve which is held in the Teachers' Retirement Allowances Fund, representing the employees' obligation towards the total pension liability, amounted to $533 million as at December 31, 1987 (1986-$473 million). The Province's liability should approximate these amounts.

The Province has accrued a liability at March 31, 1988 for unfunded losses or program expenditures in order to recognize the Province's responsibility to fund these amounts when they become payable:

	($ millions) 1988	($ millions) 1987
Manitoba Public Insurance Corporation:		
- Reinsurance Assumed Losses	$32	$ -
- Personal and Commercial Losses	27	-
Workers Compensation Board - Reimbursement of interest forfeited on employer assessments	16	-
Criminal Injuries Compensation Board - Unfunded future costs of compensation awards	15	-
Manitoba Development Corporation - Additional provision for warranty costs related to Flyer Industries Divestiture	6	7
Public Schools Support	-	35
Other	1	-
	$97	$42

11. AMORTIZATION OF FOREIGN CURRENCY FLUCTUATION

At March 31, 1987, the Statement of Financial Position stated assets and liabilities at the exchange rate in effect at the date of issue and reflected a Provision for Unrealized Foreign Currency Losses. An accounting policy change was made in 1987-88 whereby the annual amortization of fluctuation in currency values with respect to foreign currency debt uses the March 31 rate of exchange, as compared to the previous years' practice of using the average rate of the three preceding calendar years. This has the effect of increasing foreign exchange losses and accrued interest expense related to prior years by $205 million and $17 million respectively. The unamortized amount shown for 1987 has not been recalculated to reflect the new accounting policy.

12. VALUATION ALLOWANCES

As the result of an accounting policy change implemented in the 1987-88 fiscal year, changes in valuation allowances are charged to an appropriation expenditure. Prior to the 1987-88 fiscal year, such charges were recorded directly in the Excess of Liabilities Over Financial Assets Account. In implementing the accounting policy change the following adjustments were required retroactive to March 31, 1987 and were charged to the Excess of Liabilities over Financial Assets:

	($ millions)
Manfor Ltd.	$127
Manitoba Housing and Renewal Corporation	7
Leaf Rapids Town Properties Ltd.	3
	$137

is after having given effect to the write down of some loans, advances and long-term investments where it has been determined that the realizable value has been permanently impaired:

	($ millions) 1988	1987

13. CRIMINAL INJURIES COMPENSATION BOARD

Beginning with the 1987-88 fiscal year the Province is accruing the liability for long-term awards made by the Criminal Injuries Compensation Board. The accumulated liability at March 31, 1988 is $15 million. This has the effect of increasing expenditure related to prior years by $13 million and 1987-88 expenditure by $2 million.

14. LEGISLATIVE AUTHORITY FOR BORROWING AND EXPENDITURE

Limits established by legislation for borrowing funds and for expenditure from appropriations are shown below along with information regarding any non-compliance with these limits that may have occurred during the fiscal year.

1) **BORROWING:**	($ millions) **Appropriation Acts**	**Loan Acts**
Incremental Non-Lapsing Authority Provided in 1987 Acts	$ 700	$ 611
Amount Used During the Fiscal Year Ended March 31, 1988	291	38
Available for Future Years	$ 409	$ 573
Unused Borrowing Authority From Prior Years	25	1,657
	$ 434	$2,230
Less: Encumbered for Specific Purposes	-	12
Unencumbered Borrowing Authority at March 31, 1988	$ 434	$2,218

2) EXPENDITURE:

A) CHANGES FROM ORIGINAL BUDGET ESTIMATE

The original budget estimate shown on the Statement of Revenue and Expenditure consists of the statutory and voted appropriations that are authorized in the Main and Supplementary Estimates. This amount was increased during the fiscal year as follows:

	($ millions)
ORIGINAL:	
Main and Supplementary Estimates (including general statutory appropriations)	$4,218
INCREASED BY:	
Special Warrants	131
Adjustment of estimated amount of statutory appropriations to actual expenditure	22
Total Authorized Expenditure	$ 4,371

No adjustment has been made to the Budget Estimate to reflect the consolidation of Manitoba Properties Inc.

B)NON-COMPLIANCE WITH APPROPRIATION LIMITS

i) The following five voted appropriations of the Government were placed in a net overexpended position as a result of adjustments made to reflect the changes in accounting policy as defined in the Application of Accounting Policies, section IV:

ATTORNEY-GENERAL APPROPRIATION IV-6	
Protection of Individual and Property Rights	$2,641,530
BUSINESS DEVELOPMENT AND TOURISM APPROPRIATION XXXIII-2	
Business Development	$ 781,956
NATURAL RESOURCES APPROPRIATION XII-1	
Administration and Finance	$ 378,807
EMERGENCY INTEREST RATE RELIEF APPROPRIATION XXVIII-1	
Emergency Interest Rate Relief Program	$ 434,241
MANITOBA JOBS FUND APPROPRIATION XXIX-1	
Manitoba Jobs Fund	$4,212,705

ii) In addition, nine other appropriations of the Government had late accounts paid in the 1988-89 fiscal year that were in excess of the balance remaining in the appropriation at March 31, 1988. These late accounts paid 45 days after year end are excluded from March 31, 1988 liabilities by the existing accounting policy. These late accounts result in non-compliance with appropriation limits established for the respective programs.

iii) In addition, a number of adjustments resulting from changes in the valuation allowance accounting policy were recorded as expenditures although no appropriation had been provided for this purpose:

Crown Corporation Expenditures/Losses:	
Manitoba Development Corporation re Flyer	$5,851,792
Manitoba Potash Corporation	$5,389,586
Manitoba Energy Authority	$1,672,058
Manitoba Hazardous Waste Management	$ 300,313
Manitoba Oil and Gas Corporation	$ 608,536
Venture Manitoba Tours Ltd.	$ 265,115
Leaf Rapids Town Properties Ltd.	$ 55,253
Manitoba Mineral Resources Ltd.	($1,495,616)
Extraordinary Items:	
Manitoba Public Insurance Corporation	$59,060,000
Workers Compensation Board	$16,385,887

15. COMPARISON TO BUDGET ESTIMATE

For purposes of providing a meaningful comparison of changes in the financial position with the budget estimate, in addition to the budget data, other internally developed management information has also been included in the budget estimate information.

16. COMPARATIVE FIGURES

The Provincial Auditor qualified the Province's 1986-87 financial statement because of the Province's treatment of increases in valuation allowances and crown corporation losses. In order to preclude a qualification in the current Public Accounts with respect to the comparative year, 1987 expenditures, and consequently the 1987 deficit, have been restated to reflect these items as expenditures. This restatement is consistent with the 1988 treatment and presentation of such items. Certain of the 1987 statement of financial position figures have been restated to be consistent with the 1988 presentation as described in the changes to accounting policy notes. In addition, 1987 figures have been restated for the effect of consolidating Manitoba Properties Inc.

17. LIABILITIES FOR BORROWINGS - MANITOBA PROPERTIES INC.

The Government has undertaken to use its best efforts during each calendar quarter (cumulative during the year), commencing on July 1, 1989, to purchase, at a price not exceeding $25.00 per share plus all accrued and unpaid dividends and costs of purchase, 3/4 of 1% of the number of Series A Preferred Shares outstanding at the close of business on June 30, 1989.

SUMMARY FINANCIAL STATEMENTS
GOVERNMENT OF THE PROVINCE OF MANITOBA
ACCOUNTING POLICIES - STATEMENT AND APPLICATION
STATEMENT OF ACCOUNTING POLICIES

The basic accounting policies followed by the Government of Manitoba, which have been applied in the preparation of the Summary Financial Statements are summarized below. These policies have been developed and are applied in accord with the provisions of the Financial Administration Act, which is Chapter F55 of The Continuing Consolidation of The Statutes of Manitoba. Further information regarding their application to the financial transactions of the Government is provided in the section entitled "Application of Accounting Policies".

I. THE REPORTING ENTITY

The financial transactions of the Government are recorded in "The Consolidated Fund". The activities of The Consolidated Fund are divided into the "Operating Fund", which records the operational activities of the Government, and the "Trust Fund", which records the trust administration function.

Financial statements prepared for the "Operating Fund" report amounts recorded as Government revenue, expenditure on Government programs, the lending and investment of Government funds and the borrowing and repayment of debt. Separate financial statements are prepared for the "Trust Fund" which report the activities in the various categories of trust money administered by the Government.

The accounts of Manitoba Properties Inc.(MPI), Manitoba Properties Management Inc. and Manitoba Properties Leasing Inc. have been consolidated with the financial results of the Operating Fund of the Consolidated Fund in the Summary Financial Statements to reflect MPI's primary function as a provider of services to Government. The financial operations of other provincial crown corporations, agencies, boards and commissions are not consolidated, but are reflected in the summary financial statements to the extent that:

1. they receive money from or pay money to the Government, or
2. any non-recoverable deficits they incur are adjusted against the amounts loaned, advanced or invested in them by the Government, or
3. where the Government has no such loans, advances or investments involved, any losses they incur which are assumed by the Government are recorded as accrued charges.

II. BASIS OF ACCOUNTING FOR REVENUE AND EXPENDITURE

A. MODIFIED ACCRUAL ACCOUNTING

The revenues and expenditures of the Government are recorded on an accrual basis with exceptions noted as follows:

1. INCOME FROM CANADA-MANITOBA FISCAL ARRANGEMENTS - This income is recorded on a cash basis except that revenues received in advance of when they are earned are deferred to the appropriate fiscal year.
2. FEES AND OTHER REVENUE - Collections are recorded on a cash basis.
3. SALARIES AND WAGES - Salaries and wages are recorded as expenditures in the year in which they are paid. No accrual is made for salaries earned but not paid at year end, nor is any accrual recorded for salary related benefits such as vacation earnings.

record the annual cost of pension benefits earned by the civil service, teachers and members of the legislative assembly. The annual cost recorded by the Province is the government's share of pensions paid to retired employees, teachers and legislators.

5. GOODS AND SERVICES - A period of forty-five days after the end of the fiscal year is allowed for the payment of operating expenditures incurred during that fiscal year. Supplier accounts not paid within this period are treated as expenditures of the following year.

6. CAPITAL ASSETS AND INVENTORIES - Expenditures for the acquisition and/or construction of physical assets, acquisition of inventories and other deferred expenditures are not considered to differ from any other service to the public and accordingly are treated as an expenditure of the year in which the expenditure is made.

B. GROSS ACCOUNTING CONCEPT

Revenues and expenditures are recorded in gross amounts with the following exceptions:

1. The municipal share of Individual and Corporation Income Taxes, which is paid to Municipalities in accordance with the Provincial-Municipal Tax Sharing Act, is not recorded as revenue by the Government.

2. Refunds of revenue are treated as reductions of current year revenue.

3. Decreases in valuation allowances previously provided are treated as reductions to expenditure.

tions and Government Agencies of the debt servicing costs on self-supporting debt are recorded as a reduction of Public Debt expenditure. The same treatment is also given to income earned on investments and interest on advances.

III. ASSETS AND LIABILITIES

1. The assets and liabilities reported in the financial statements are financial claims. The assets are claims by the Government on other parties and the liabilities are claims by other parties on the Government.

2. Physical assets, including inventories, do not represent financial claims on others. Therefore they are not reported as assets at fiscal year end. The Government has substantial holdings of physical assets such as buildings, highways and educational and health facilities, which will be used to provide services in future periods and may tend to appreciate in value over time.

3. Loans, advances and long-term investments held by the Government are subject to annual valuation. A Valuation Allowance is used to reflect the estimated change in value of these assets.

4. Investments, including sinking funds, made in foreign currencies are recorded at the Canadian dollar equivalent of the par value based on the exchange rate in effect at March 31.

5. Bonds, debentures and other long-term debt are recorded as liabilities at the par value of the issue. Issues in foreign funds are recorded at the Canadian dollar equivalent of the par value based on the exchange rate in effect at March 31. The foreign

exchange fluctuation is amortized over the life of the debt issue. Any discount, premium or commission incurred at the time of issue of the debt is also amortized over the life of the debt issue.

Sinking funds are maintained in accordance with the legal requirements of the debt instruments and the Financial Administration Act.

IV. GUARANTEED AND INDIRECT LIABILITIES

In addition to having direct debt, the Government also acts as a guarantor of securities issued by various other entities. The debt issued by Crown Corporations, Agencies, Boards and Commissions and guaranteed by the Government is largely self-supporting. Other guaranteed debt for schools, universities and hospitals is serviced in whole or in part from appropriations of the Consolidated Fund.

Legislation requires the maintenance of Sinking Funds for the retirement of the debt of most Crown Corporations, Agencies, Boards and Commissions. These Sinking Funds are held in Trust by the Minister of Finance. The Crown Corporation, Agency, Board or Commission to whom the debt applies make annual contributions to the Sinking Fund.

Contingent Liabilities that result from other financial activities of the Government are reported in the notes to the financial statements.

APPLICATION OF ACCOUNTING POLICIES

The following outlines the application of the accounting policies to the financial transactions of the Government:

I. REVENUE

A. Amounts received in April from Agents for provincially collected taxes pertaining to the year just ended are recorded as revenue receivable. Amounts not received by April 30 are not accrued, but are considered revenue in the following year.

B. Where, pursuant to an agreement or arrangement, money is received in advance relating to projects for which expenditures are to be made in more than one fiscal year, the money is deemed to have been received in each fiscal year in proportion to the related expenditure made in the respective fiscal year.

C. The accounts are kept open until June 30 to reflect any adjustments regarding revenue from the Government of Canada under the Canada-Manitoba Fiscal Arrangements.

D. Fees and other revenue collections are recorded on a cash basis.

II. EXPENDITURE

A. The following practices are applicable when recording the public debt costs of the Province:

   1. An accrual is made to March 31 for interest receivable from loans, advances and investments.

   2. The annual fluctuations resulting from the conversion of foreign currency investments to the Canadian dollar equivalent at March 31 are amortized over the remaining life of the investment.

   3. An accrual is made to March 31 for the interest payable on bonds, debentures and other

long term debt and on trust funds invested with the Minister of Finance. In the case of foreign issues, the accrual is calculated on the Canadian dollar equivalent of the par value of the outstanding debt based on the exchange rate in effect at March 31.

4. The annual fluctuations resulting from the conversion of outstanding foreign currency borrowings to the Canadian dollar equivalent at March 31 are amortized over the remaining life of the respective issues. Where an issue of debt is called for redemption prior to maturity and refinanced with another issue of debt, the original debt is converted at the exchange rate in effect at the date of redemption and the fluctuation is amortized over the term of the first replacement issue. However, if the remaining term of the original issue is one year or less, the fluctuation is fully expensed in the year of redemption.

5. Any discount, premium or commission incurred on the issue of long term debt is amortized over the life of the respective debt issue.

B. Increases (decreases) to the Valuation Allowance, which represents an estimate of the change in recoverable value of loans, advances and long-term investments, are charged (credited) to appropriations.

C. Payments made by the Government for capital purposes do not represent claims on others and are therefore not reported as assets, but rather as expenditures. Such expenditures are classified as expenditures related to capital in the Main Estimates of Expenditure and are defined as follows:

1. expenditures for property of all kinds, both real property and chattels, purchased or self-constructed for use by Government that are deemed to have an economic life in excess of one year;

2. expenditures for projects or activities which entail major renewals, modification or modernization by own labour forces or by contractors on behalf of the Government and which significantly prolong the expected economic life of the asset;

3. the principal portion of a debt repayment when the debt was incurred to acquire a physical asset and the acquisition cost of the physical asset was not previously reflected in the Consolidated Fund as an expenditure; or

4. grants or assistance payments to municipalities, school divisions, external agencies, commercial organizations and private individuals which are known to be for the purchase, construction or improvement of physical assets.

D. Expenditures, other than salaries and wages, related to the fiscal year just ended, processed and paid during the 45 days after the end of the fiscal year, are recorded as expenditures for the fiscal year just ended. Payments for goods and services made after the 45-day period pertaining to the fiscal year just ended are treated as expenditures of the following year.

However, accrual of expenditures

is allowed after the 45-day period if required to show the accurate financial condition of the Government, pursuant to authority provided under Section 8 of the Financial Administration Act. In this regard, any entries made after June 30 must be disclosed in the Public Accounts.

III. ASSETS AND LIABILITIES

The Statement of Financial Position is prepared in accordance with the following practices:

1. CASH AND EQUIVALENTS

This classification is comprised of the temporary investments of the Province which are increased/reduced by the net balance/overdraft in the Province's bank accounts. It is further reduced by the amount of uninvested cash belonging to the Provincial Sinking Fund. This cash is designated as part of the Provincial Sinking Fund and will be made available for investment when required.

Temporary investments are securities held as investments of the Government's available cash flow. They are generally comprised of money market instruments such as term deposits and negotiable securities which are intended to be held for a short term. All investments are shown at cost. The net bank balance/overdraft has been adjusted for cheques issued prior to and not presented for payment at March 31st and for cash in transit.

2. AMOUNTS RECEIVABLE

Amounts receivable include estimates at March 31 for provincially collected tax revenues, interest on investments and advances, the uncollected balance of claims related to shared-cost agreements with the Government of Canada and significant amounts expected to be recovered from Crown Corporations, Agencies, Boards and Commissions.

3. LOANS AND ADVANCES

Advances to Crown Corporations, Agencies, Boards and Commissions, which are generally interest bearing, are shown under this heading.

The Sinking Funds provided by Crown Corporations, Agencies, Boards and Commissions for repayment of the debt issued by the Province to fund advances to these entities are deducted from the advances.

Certain of the Crown Corporations are charged with responsibility for administering Government programs for which they receive funds from Government appropriations. These funds are applied by the Corporation towards the program administration cost, including, in some cases, a portion of the interest they are charged on these advances. The principal repayment for certain of the advances is dependent on total or partial funding from future appropriations of the Operating Fund.

Loans and advances to Municipal Corporations or others under various Government programs are included here. Certain of these amounts may be interest bearing depending on the nature of the program.

All loans and advances are subject to annual valuation to reflect reductions from their recorded value to their estimated realizable value. Where a loan or advance has been partially written down to reflect a permanent decline in its realizable value, it is carried at its decreased value. Otherwise, it is recorded at cost. Once written down, the value of the asset is considered to be permanently reduced. A subsequent increase in value is recognized only when realized.

4. LONG-TERM INVESTMENTS

The majority of the Province's long-term investments consist of shares and debentures of Crown Corporations. All investments are subject to annual valuation to reflect reductions from their recorded value to their estimated realizable value. Where an investment has been partially written down to reflect a permanent decline in its realizable value, it is carried at its decreased value. Otherwise, it is recorded at cost. Once written down, the value of the asset is considered to be permanently reduced. A subsequent increase in value is recognized only when realized.

5. VALUATION ALLOWANCE

A valuation allowance is provided to reflect decreases in the value of loans, advances and long-term investments and is adjusted annually for changes that have occurred in the estimated realizable value of these assets. Increases in the valuation allowance are recorded as expenditures, and conversely decreases in the valuation allowance are treated as a reduction to expenditures.

Loans, advances or long-term investments may be written down in the accounts of the Government, pursuant to authority provided under the Financial Administration Act. The write down is applied to the valuation allowance, whether it occurs in the year the valuation allowance is provided or in a subsequent year.

The valuation allowance is determined as follows:

A. CROWN CORPORATIONS, AGENCIES, BOARDS AND COMMISSIONS - LOANS,ADVANCES AND LONG-TERM INVESTMENTS

1. OPERATING DEFICITS

The valuation allowance is used to provide for losses, that are other than temporary declines, in value of the Government's investments made by way of loans, advances or purchase of shares. The valuation allowance is based on the financial results applicable to the most recent fiscal year completed prior to April 1. Where an assessment of the accumulated deficit indicates a prospect for recovery from future operations, the amount of valuation allowance is adjusted accordingly.

2. NON-RECOVERY OF CAPITAL INVESTMENT

A valuation allowance may be provided where there is reasonable evidence that the Province's investment will not be realized.

If the Government has more than one type of investment in an organization (eg. common shares, preferred shares and debentures), the valuation allowance is assigned against the investments in order of priority on liquidation.

B. OTHER LONG-TERM INVESTMENTS

The valuation allowance is used to record losses, that are other than temporary declines, in value of the Government's investments in other than Crown Corporations, Agencies, Boards and Commissions. The valuation allowance is based on an annual valuation of the investments.

C. LOAN AND SUPPORT PROGRAMS

The valuation allowance is used to provide for the estimated amounts not recoverable under a Government loan or support program. The valuation allowance for doubtful accounts that has been established for that loan or support program is recorded by means of a valuation allowance placed against the loan or advance used to fund the program. Increases to the valuation allowance are recorded as an expenditure regardless of the timing of the write-off of the uncollectible accounts, such write-off being applied directly to the valuation allowance.

6. **AMOUNT OWING TO THE TRUST FUND**
A large portion of this money has been deposited with the Minister of Finance in accordance with the terms of the legislation regulating the management of sinking funds and the investment of surplus cash of Crown Corporations, Agencies, Boards and Commissions. Such deposits are pooled with other available funds of the Province and are accorded a market rate of interest.

7. **ACCOUNTS PAYABLE, ACCRUED CHARGES AND DEFERRED REVENUE**
Cheques issued during the forty-five day period after March 31, in payment for goods and services pertaining to the fiscal year just ended are shown as accounts payable rather than as outstanding cheques.

Accrued charges represent interest payable on provincial securities and Trust Funds, and include unfunded liabilities relative to crown entities and external agencies at March 31.

Deferred revenue consists of money received from taxation and shared-cost agreements which does not relate to the fiscal year just ended. It will be recorded as revenue in the appropriate year.

8. **PROVISION FOR FOREIGN CURRENCY FLUCTUATION ON MANITOBA HYDRO DEBT**

The Province retains the obligation to pay only the amounts that have been provided in the Province's accounts in respect of this debt up to March 31, 1987. The responsibility for foreign exchange gains or losses associated with the translation to Canadian dollars of the Manitoba Hydro United States dollar denominated debt was transferred to Manitoba Hydro effective April 1, 1987.

9. **BORROWINGS**
This category includes bonds, debentures, secured loans from the Government of Canada, treasury bills and notes and preferred shares issued by Manitoba Properties Inc. Securities issued in Canadian funds are recorded at par value. Securities issued in foreign funds are recorded at the Canadian Dollar equivalent of the par value based on the exchange rate in effect at March 31.

Borrowings are reduced by the unamortized balance of the discount or premium, and commission incurred on the issue of long-term debt which will be amortized over the remaining term of the debt issues for which these costs were incurred.

Borrowings are also reduced by sinking funds which are maintained in accordance with the legal requirements of the Province's direct debt instruments and the Financial Administration Act. Money is allocated annually to these sinking funds on the following basis:

A. a sum equal to 3% of the aggregate amount of general

Dollars converted at the date of issue, outstanding at the end of the preceding fiscal year; and

B. all earnings derived from investing the sinking fund.

In addition, principal repayments of advances by agencies which are funded by the issue of provincial securities are deposited to the sinking fund, provided that the principal repayments are made prior to the maturity date of such securities.

The total shown for sinking funds also includes sinking fund money provided by Crown Corporations, Agencies, Boards and Commissions with respect to debt incurred on their behalf by the Government.

10. UNAMORTIZED FOREIGN CURRENCY FLUCTUATION

This balance represents the unamortized portion of unrealized foreign currency gains or losses on the conversion of the assets and liabilities of the Province to Canadian dollars at March 31 rates. It also includes the unamortized portion of realized foreign currency gains or losses on the conversion of the foreign currency debt called prior to maturity using the rates in effect at the time of the call.

When translation of foreign currency debt occurs at March 31, any fluctuation since the previous fiscal year-end is added to the unamortized balance for each debt issue and the resulting amount is amortized over the remaining term of the issue. The amortization is applied to the Public Debt expenditure account. When the debt matures, the actual loss (gain) from the amortized value is charged (credited) to the expenditure account.

where an issue of debt is called for redemption prior to maturity and refinanced with another issue of debt, the original debt is revalued at the date of redemption. Any foreign exchange gain or loss compared to the amortized value is then amortized over the term of the replacement issue. This applies to only the first replacement issue. If further replacement issues are involved, the unamortized fluctuation is expensed. As well, if the remaining term of the original issue is one year or less, the unamortized fluctuation is fully expensed in the year of redemption.

11. EXCESS OF LIABILITIES OVER FINANCIAL ASSETS AND OTHER OBLIGATIONS HELD BY THE PROVINCE CONSIDERED TO BE SIMILAR IN NATURE

A. SERIAL DEBENTURES OF SCHOOL DIVISIONS AND DISTRICTS, TRANSFERRED FROM THE MANITOBA SCHOOL CAPITAL FINANCING AUTHORITY

The School Capital Financing Authority Act was repealed April 1, 1983 at which date all investments and money held by the Authority, as well as debt payable by the Authority, was assumed by the Government. The investments transferred to the Government consist of serial debentures issued by school divisions and districts for which the Government is primarily responsible for repayment. These securities are therefore included in this category because they do not represent a claim on other parties.

The estimates of expenditure provide an annual appropriation in the Consolidated Fund to cover the principal and interest costs of these debentures. The cash drawn from this appropriation for the required annual principal repayments is transferred to the

Province's sinking fund where it will be used for repayment at maturity of the debt assumed from the Authority. A similar treatment would be accorded any proceeds from the sale of the school debentures.

B. EXCESS OF LIABILITIES OVER FINANCIAL ASSETS
This account and the account previously described represent the difference between liabilities which are financial claims owing by the Government, and financial assets, which are financial claims receivable by the Government. Since the physical assets and materials inventories of the Government do not constitute a financial claim receivable by the Government, they are not considered in the determination of this balance.

IV. CHANGES IN ACCOUNTING POLICY

Section 10 of the Financial Administration Act requires disclosure of any change in the accounting policies of the Government from those followed in the preceding fiscal year.

A. The Province has calculated the 1987-88 amortization of fluctuations in currency values with respect to foreign currency denominated debt using the March 31 exchange rate. Previously, it used the average of the exchange rates that were in effect during the fiscal year just ended and the preceding two years.

This has resulted in an increase to amortized fluctuation losses for prior years of $205 million, and a decrease in 1987-88 costs of $12 million. The change has also affected interest on public debt payable in foreign currencies, as well as the amortization of debt issue costs resulting in a further charge to prior years of $17 million and an increase to 1987-88 costs of $2 million.

Concurrent with this change, borrowings will be presented on the Statement of Financial Position at the Canadian dollar equivalent of the par value based on the exchange rate in effect at March 31. The unamortized fluctuation is presented as an offset. Previously these borrowings were presented at the Canadian dollar equivalent of the par value at the date of issue, augmented by the amount of fluctuation that had been amortized. This revised presentation has been adopted at March 31, 1988 and at March 31, 1987, for comparative purposes. However, expenditures for the fiscal year ended March 31, 1987 have not been restated to reflect the effect of the change.

B. It was indicated, in the 1986-87 Public Accounts, that valuation allowances considered to be non-recoverable would be recorded as an expenditure appropriaton in the year subsequent to the year in which this determination was made. This policy has now been changed so that the loss is recorded in an expenditure appropriation the same year the loss has been determined. In the case of accumulated deficits of Crown Corporations, Agencies, Boards and Commissions, it is no longer a requirement that the asset be written down in order to charge an appropriation. Changes in the allowance are charged (credited) to expenditure regardless of the timing of the write down of the asset. Valuation Allowance increases of $19 million were charged to 1987-88 expenditure which would have been charged to 1988-89 under the old policy.

costs of awards made under the Criminal Injuries Compensation program is now recorded at each fiscal year-end and the increase in liability is added to the annual cost of the program. The costs of the program were previously recorded on a cash-flow basis. These costs, $2 million for 1987-88 and $13 million related to prior years, had not previously been reflected in the Government's accounts.

D. The Province has assumed liabilities for losses, previously considered to be outside the Consolidated Fund, incurred by the Manitoba Public Insurance Corporation and the Workers Compensation Board. This has resulted in the recording of expenditure of $75 million for 1987-88. Prior to this change, such losses were only recognized if the Government had a loan, advance or investment recorded for the crown entity.

E. The consolidaton of Manitoba Properties Inc., Manitoba Properties Leasing Inc. and Manitoba Properties Management Inc. is a change in the reporting entity and has been applied retroactively to March 31, 1987.

JUNE 30, 1988

Section 8(2) of the Financial Administration Act requires disclosure of entries made after June 30th respecting transactions of the preceding year. Accordingly, the following are reported:

A. ENTRIES TO REFLECT ACCOUNTING POLICY CHANGES
The changes in accounting policy described in Section IV above were based on recommendations resulting from a study requested by the Government. These recommendations were received subsequent to June 30, 1988, and therefore the related entries were made subsequent to that date.

B. WRITE-OFF OF LOANS, ADVANCES AND LONG-TERM INVESTMENTS
Authorization for the write-off of $10 million of loans, advances and long-term investments, as detailed in note 12 to the Financial Statements, was provided by order-in-council 1266/88 approved on October 19, 1988, and was effective retroactively to March 31, 1988.
